

Product Variant Grid Widget

(Formerly known as the Product Attribute Grid widget)

Widget Use

Renders 2-dimensional style / colour / size options for a product in a compact grid layout, instead of using the [Product Attribute List](#) display method. With the attribute grid, options are presented in a matrix where the user can enter quantities against multiple options and add their selections to the cart.

Example of Widget Use

Following is an example of the widget in use:

Dickies Ladies Fitted Polo Shirt

Product Code: CV144

\$27.95

inc GST

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template
- Product List Item Zoned Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	Default: blank. We recommend a description is added so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All																		
Show Heading?	Determines whether a heading is displayed to the customer above the attribute grid. ▼ Product Options <table><tr><th>Product Code</th><th>Type</th><th>Availability</th><th>Price inc GST</th><th>Qty</th><th>Total inc GST</th></tr><tr><td>CV153</td><td>Pants</td><td> In Stock</td><td>\$18.99</td><td> 0 + - </td><td>\$0.00</td></tr><tr><td>CV154</td><td>Shirt</td><td> In Stock</td><td>\$18.99</td><td> 0 + - </td><td>\$0.00</td></tr></table>	Product Code	Type	Availability	Price inc GST	Qty	Total inc GST	CV153	Pants	 In Stock	\$18.99	0 + -	\$0.00	CV154	Shirt	 In Stock	\$18.99	0 + -	\$0.00	Default: ON If OFF, the customer does not have to click the drop-down arrow to display the product selection grid. 	3.88
Product Code	Type	Availability	Price inc GST	Qty	Total inc GST																
CV153	Pants	 In Stock	\$18.99	0 + -	\$0.00																
CV154	Shirt	 In Stock	\$18.99	0 + -	\$0.00																

We recommend disabling the Heading Text (turn off the **Show Heading?** button) so that the product variant grid displays automatically, encouraging buyers to use this easy selection method.

Heading Text	The heading displayed above the attribute grid (if enabled).	Default: Product Options	3.88
Add Button Text	The text on the Add to Cart button at the bottom of the attribute grid.	Default: Add selected to cart	3.88
Product Tooltip	The help text displayed when the user hovers over the quantity box for an option. The placeholders will be replaced as follows: ◦ {0} = the attribute combination (e.g. "Red, Small") ◦ {1} = the price for 1	Default: Price For Product {0} = {1}	3.88
Product Not Found Message Template	The message displayed to the user when they attempt to select an unavailable product. The placeholder {0} will be replaced with the selected combination (e.g. "Red, Small").	Default: Product {0} Not Found	3.88
Increase Quantities In Pack Qty?	Determines whether values in the quantity box change in pack quantity values when the + / - buttons are used.	Default: OFF	3.88
Add Minimum Quantity to Cart?		Default: OFF	

Implementation Notes

- Only products with 2 attribute types can utilise the grid display; this widget will not render for products with fewer or more than 2 options.
- To enable a particular product for grid display, **Product Matrix Mode** must be set for that product.
- To ensure the product variant grid displays correctly in CSS, make sure **Product Matrix Mode** is allowed. See [Product Variant Grid](#) for more details.
- Please [contact CV Support](#) for assistance enabling multiple products in a bulk update.
