

Customer Accounts Widget Library

- [Account Payment Detail Widget](#) — Renders the payment detail information in the body of the various Account Payment confirmation emails. Information includes (but is not limited to) the order number, account number, invoice, and amount paid.
- [Account Payment Paid FAIL Widget](#) — Renders information regarding failed payments on the Account Payment page. Relevant information could include response codes and validation messages, for example.
- [Account Payment Paid OK Widget](#) — Renders confirmation details after a user successfully pays an invoice.
- [Account Payment Widget](#) — Renders the list of the customer's outstanding invoices on the Account Payment page template.
- [Account Summary Widget](#) — Renders the account enquiry selector on the Account Summary page template.
- [Current Order Account Switch Message Widget](#) — Displays the message text in the popup when Enhanced Order Switching is in use and the user switches accounts while compiling an order. If the user has items in the cart of their destination account, they are given the option to remove them, place them on hold, or merge with current cart items.
- [Customer Client Project Dialogs Widget](#) — Renders the Customer Client dialog windows to input and edit client and project details.
- [Invoice Reprint Widget](#) — Renders the invoice search and reprint functionality on the Invoice Reprint page.
- [Maintain Customer Client Projects Widget](#) — Renders the Customer Client Project Maintenance page for the Customer Client Project feature.
- [Maintain Customer Clients Widget](#) — Renders the Customer Clients Maintenance page .
- [Order Project Selector Widget](#) — Renders the Project panel on the Checkout page to allow users to link an order to a Client Project.
- [Orders Awaiting Payment List Widget](#) — Renders a list of orders for which payment is outstanding. From this list, the user can view the order, or proceed to pay as per the standard 'Pay Account' process.
- [Pricing Information Widget](#) — Renders a price-check function to query pricing for products by customer. The resulting matrix displays the price rules in effect, discounts, and pricing method used.
- [Statements Available Message Widget](#) — Renders the message text (including your company name and a login link) in the Customer Statements Available email.
- [Switch Account Widget](#) — Displays the user's current account, as well as a link to change accounts (where applicable).
- [User Impersonation select widget](#) — Renders a results table with a search of all the users who are in an account the current authenticated user is assigned to or a rep of
