Promotions & Marketing Widget Library

- Campaign Slider Widget — Displays the products from a nominated Campaign in your chosen layout. Slider mode (default) is a traditional carousel in which product tiles scroll across the page. Alternatively, you can choose from Grid or List mode, both of which are static (no sliding behaviour).
- Flyer Creation Widget Library
    - Customer Contact Details Widget — Renders standard contact information (such as address, phone, and email) on the PDF generated via the Flyer Creator.
    - Customer Logo Widget — Renders the customer logo (for the logged in customer) on the PDF generated via the Flyer Creator.
    - Flyer Creator Widget — Renders the Flyer Creator interface and controls preferences such as Profit Calculation method and addresses override. Also used to customise button and field labels on the Flyer Creator page.
    - Flyer Price Widget — Renders the product price on the Flyer PDF.
    - Flyer Product List Grid Widget — Renders the product section of the PDF flyer. The contents of this section are determined by the flyer layout selected, and the item configuration used by that layout.
    - PDF Flyer Style Sheet Widget — Acts as the 'theme layout' for PDF flyers generated via the Flyer Creator. The style sheet sets the header and footer colours, logo placement, and contact details layout.
- Newsletter Widget — Renders the Newsletter subscribe box, which integrates to MailChimp. Also supports API 3.0
- Order Confirmation Promotional Code Widget — Displays a message to the user regarding newly created promotion codes, for use in conjunction with Monthly Promotion Code types.
- Social Links Widget — Inserts social media icons that link to the business's social media pages.
- Social Sharing Plugin Widget — Acts as a placeholder to output customised javascript based on content from Add This http://www.addthis.com/ (social network Share buttons, for example).
