

User Approval Rejected Message Widget

Widget Use

Renders the message content in the User Approval Rejected email. This email is triggered when a new B2B user is NOT approved for web access.

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- User Approval Rejected Email Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	<p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All

Rejected Message	<p>The message content displayed by the widget in the body of the email.</p> <ul style="list-style-type: none"> The placeholders {companyName} and {websiteUrl} are replaced with your Company and site details. The placeholders {approverFirstName}, {approverSurname}, and {approverEmailAddress} are replaced with actual values applicable to that user. 	<p>Default is:</p> <p>This is a system-generated email from the {companyName} Website</p> <p>Your registration as a user of {websiteUrl} has been rejected.</p> <p>Please contact {approverFirstName} {approverSurname} on {approverEmailAddress} if you have any questions.</p>	3.88

Other Widgets

- Order Payment Links Form Widget** — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- Magic Link Authentication Message Widget** — Renders the Magic Link authentication message.
- CUSTOM_Side by Side Content Tiles Widget** — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- Stock Dialog Widget** — Displays the Stock to Receive Detail dialog window.
- Stock to Receive Widget** — Displays the Stock to Receive page.
- Stock Levels Widget** — Displays Stock Levels page.
- Order Declined Pending 3rd Party Installment Msg Widget** — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- Order Field Static Widget** — Renders an additional order field in email templates.
- Online Quote Validation Widget** — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- Header Level Cost Centre Widget** — Renders the cost centre input field on the order header in the shopping cart.
- Openpay Summary Widget** — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- Order Line Availability - Click and Collect Widget** — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- Account Activation Email Content Widget** — Renders the message content in the Invitation to Register an Account email.
- Order Template Cost Centre Widget** — Renders the cost centre input field on each product line in an order template.
- BPAY Account Payment Detail Widget** — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
