

# Value Propositions Widget

## Widget Use

Renders a styled horizontal bar with 3 distinct sections (each referred to as a "proposition"). Each proposition consists of customisable logo and a text which can be linked to any URL (within your site or external to it). On mobile devices, one proposition is displayed at a time, fading into the next and then cycling through in sequence.

## Example of Widget Use

Following is an example of the widget in use:

## Where can the Widget be placed?

The widget can be used in the following templates:

- All Templates (Theme Layout or Home Page are suggested placements).

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	<p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but the different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Proposition 1 Label	The link text displayed in position 1.		3.90
Proposition 1 URL	The URL the position 1 text links to.	This can be an external URL ( <a href="https://www.google.com.au/">https://www.google.com.au/</a> ), or a link relative to your website (/orders-and-returns).	3.90
Proposition 1 Icon	The icon is displayed in position 1	<p>An option to represent each proposition functionality with the use of icons.</p> <p>This is really helpful to determine each section without reading the proposition title.</p>	4.13
Proposition 2 Label	The link text displayed in position 2.		3.90
Proposition 2 URL	The URL the position 2 text links to.	This can be an external URL ( <a href="https://www.google.com.au/">https://www.google.com.au/</a> ), or a link relative to your website (/orders-and-returns).	3.90
Proposition 2 Icon	The icon is displayed in position 2		4.13
Proposition 3 Label	The link text displayed in position 3.		3.90
Proposition 3 URL	The URL the position 3 text links to.	This can be an external URL ( <a href="https://www.google.com.au/">https://www.google.com.au/</a> ), or a link relative to your website (/orders-and-returns).	3.90
Proposition 3 Icon	The icon is displayed in position 3		4.13
Mobile Fade Timing	The number of milliseconds that proposition 1 appears on screen before fading into proposition 2 (and then 2 into 3) on a mobile device.	Default is: 3000	3.90

## Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM\\_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
