Configure System-level Feature Options

There are some system-level options you can configure for your site's promotion codes. These will apply globally, unless you override them at the individual promo code level.

1. In the CMS, navigate to **Settings Feature Management Payment & Checkout Promotion Codes**.

2. Toggle ON **Promotion Codes**.

3. To edit global settings for the **Promotion Codes** feature, click **Configure** .

4. Configure each option as required. If you're not sure what an option does, check the table below.

5. **Save** your changes.

Promotion Code Feature Settings

Option	Definition	Example of use
Show Category Code In Dropdown	Prepends the Category Code to the Description in the dropdown selector (used when nominating a category of eligible products for a promo).	WITHOUT this option enabled: Category ▼ sleep × Sports & Outdoors > Camping > Sleeping Bags ● Add WITH this option enabled: Category ▼ sleep × (SX010402) Sports & Outdoors > Camping > Sleeping Bags ● Add
Default Discount Charge Type	The ERP's charge line type for the discount. Choose from 0 - 9.	

Default Discount Charge Description	The ERP's charge line description text.	
Default Promotion Code Applied Message	The notification displayed when the promo code is successfully applied to the user's cart. Leave blank to use the system default.	
Default Promotion Code Error Message	The notification displayed when the promo code can't be applied. Perhaps the cart value is not high enough, or the user hasn't purchased the minimum quantity. Leave blank to use the system default.	
Default Promotion Code No Longer Applies Message	The notification displayed when the promo code was previously applied, but the user has updated their cart contents such that they are no longer eligible for the promotion. Leave blank to use the system default.	

Edit Promo Code Box

Your customers can enter a promo code in the 'Have a Promo Code?' box when in their Shopping Cart. You can edit the text that appears in the Cart Promotional Code Entry Widget (located in the Cart template).
