Customer Logo Widget

Widget Use

Renders the customer logo (for the logged in customer) on the PDF generated via the Flyer Creator.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- PDF Flyer Layout

Widget Options

Option	Use	Comments	Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page..	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
URL Override Path	Specify the path to an alternate file directory where you store customer logos. If you leave this field blank, the system will look in the default location of /images /flyers.	Your customer logo image files should follow the filename format 'CustomerCode.png' (or .jpg).	3.94
