The widget can be used in the following templates:

- Return Confirmation Page Template

## Widget Options

| Option | Use | Comments | Available from Version |
|---|---|---|---|
| Description | A short description of the widget's use. | We recommend this field be updated so the widget's purpose is clear at a glance from the template page. | All |
| Layer | The layer the widget is valid for. | The layering technology allows for the content to be shown to specific audiences.<br><br>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed.<br><br>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget. | All |
| Heading | The heading displayed at the top of the widget. | Default is: Return Information | 4.05 |
| Heading Icon | The icon displayed to the left of the heading at the top of the widget. | Default is: cv-ico-general-info | 4.05 |
| Reason Code Prompt | The label for the return reason field. | Default is: Reason Code | 4.05 |
| Copy Return Confirmation Prompt | The label for the number of parcels being returned field. | Default is: Number of Parcels to pick up | 4.05 |
