

# Test Credit Card & PayPal credentials for your Stage site

The correct test credit card details will depend on the Stage site's Payment Provider. Verify your site's payment provider, then locate the appropriate card details below.

PayPal information for Stage site testing is located at the bottom of this page.

## Step-by-step guide

To check system settings for the online Payment Provider:

1. Login as an Administrator.
2. Navigate to **'Settings' -> 'Orders' tab -> 'Credit Cards' tab**.
3. Locate the setting labelled **'C/Card Payment Provider'**.
4. The payment provider for your site should be displayed in this field, e.g.:
  - eWay Rapid API Version 3
  - Dialect SAFEPAY Secure Payments Gateway
  - Payment Express
5. Locate the correct card details below for use in Stage site testing.

If there is no Payment Provider nominated in system settings, it may be a role-based setting.

To check role settings for the online Payment Provider:

1. Login as an Administrator.
2. Navigate to **Accounts -> Role Management**.
3. Select via radio button the role which will be used to test payment.
4. When the page reloads with role details, click the **'Functions' tab**.
5. Scroll to the section labelled **'Role based credit card settings'**.
6. The payment provider name should be shown in the setting labelled **'Pay accounts provider'**.
7. Locate the correct card details below for use in Stage site testing.
