# Integrator Settings - Notifications

In the event of errors during sales order creation, the CSS Integrator is able to notify a nominated user. These settings are maintained on the **'Notification s'** tab of the Integrator Settings.

Step-by-step guide

To Update the Notification Settings:

1. *Open the Integrator client.*
2. *Click the **'Settings'** icon along the top menu.*
3. *Click the **'Notifications'** tab.*
4. *Update the values as required:*
   - ***Internal SMTP Server*** *- the outgoing mail server used to send error notifications.*
   - ***Errors Creating Orders*** *- the email address to send notifications to in the event of errors creating sales orders.*
5. *Click **'OK'** to save.*
