

Account Select Widget

Widget Use

Displays a list of all of the user's accounts, along with a search facility. The user can select from the list to switch between accounts when logged in. The widget can also be used within the cart to allow users to switch accounts for their current order.

Example of Widget Use

Following is an example of the widget in use:

Account Select Page

Account Select

Please select your account from the list below, or use the search facility to look up the account Name or Code.

☒ Contains ☐ Starts With

2 records, (1 page)

Code	Name	Address

ABC	The ABC Trading Company	1186 Toorak Road

Where can the Widget be placed?

The widget can be used in the following templates:

- Account Select Page Template
- Cart Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommended this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Show Address 1?	Determines whether the default address for the Customer is displayed.	Default is: ticked Untick to disable	All
Customer Code Title	The text displayed at the top of the Customer Code column in the account list.	Default is: Code	All
Customer Name Title	The text displayed at the top of the Customer Name column in the account list.	Default is: Name	All
Customer Address 1 Title	The text displayed at the top of the Customer Address column in the account list.	Default is: Address	All
Default Redirect Home?	When ticked, if there is no redirect page provided, redirect to the home page after a successful account selection.	Default is: ticked Untick to disable	All
Change Account For Order			
Is Change Account For Current Order?	Determines whether the cart contents stay with the user once they switch accounts.	Default is: unticked Tick to enable Note - Enable this option when the widget is in the Cart template (not on the Account Select Page template)	3.88
