

# Product List Add To Cart Widget

## Widget Use

Renders an 'Add To Cart' button on products in a list, such as search results, a product category, or the favourites page. Only applies to products using the zoned layout.

## Example of Widget Use

Following is an example of the widget in use:

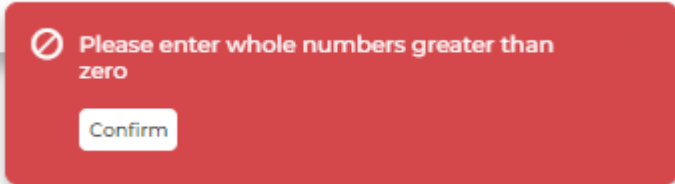

## Where can the Widget be placed?

The widget can be used in the following templates:

- Product List Item Zoned Template
- Product Quick View Modal Template
- Product Search with Preview List Item Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Enable Increase Quantities By User Preferences?	Determines whether the user's quantity preference set defaults when adding to cart.	<p>Default: OFF</p> <ul style="list-style-type: none"> <li>NOTE: When this functionality is off, the buyer will see the error message of: <i>'Please enter whole numbers greater than zero'</i></li> </ul>  <p>Toggle to enable</p>	4.33
Increase Quantities In Pack Qty?	Determines whether products sold in pack quantities will increase/decrease by pack number rather than the 1 each time the user selects the plus or minus icons.	<p>Default: OFF</p> <p>Toggle to enable</p>	3.75
Add Minimum Quantity To Cart?	If a product has been set a minimum quantity other than one to add to cart and the user's role is flagged to obey this, add this number to cart.	<p>Default: OFF</p> <p>Toggle to enable</p>	4.12
