Can't live without these

I have to buy 3 times as many pins as I need, because everyone in the office steals mine. They're very handy indeed.

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

| Option | Use | Comments | Available from Version |
|---|--|--|------------------------|
| Description | A short description of the widget's use. | We recommend this field be updated so the widget's purpose is clear at a glance from the template page. | All |
| Layer | The layer the widget is valid for. | <p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p> | All |
| Show Write Review Button? | Determines whether a button is displayed which links to the product review form. On clicking, the user is presented with a blank review form. | Default: enabled Toggle to disable | All |
| Default Number of Displayed Reviews | The maximum number of reviews displayed. If the number of reviews exceeds this value, a 'Read More' button will be displayed so the user can view all reviews for the product. | Default: 4 | All |
| Show Reviewer Location? | Determines whether the reviewer's location is displayed in the published review. | Default: enabled Toggle to disable | All |
| Show Admin Replies? | Determines whether the admin's response is displayed below the review. | Default: disabled Toggle to enable | 4.09 |
| Admin Reply Signature | The signature text added to all review responses. | | 4.09 |
| Include Child Reviews On Master Products? | Determines whether reviews of Child products will be included in the Master product page. | Default: disabled Toggle to enable | 4.31 |
| Titles | | | |
| Heading Text | The heading text displayed at the top of the widget. | Default: Customer Reviews | All |
| Notifications | | | |
| No Reviews Text | The text displayed when there are no reviews for a product. | Default is: There are currently no reviews for this product, be the first. | All |
| Thank You Text | The confirmation text displayed when the user has submitted a review. | Default is: Thank you for your review of {0}. Note - {0} is a placeholder for the product title | All |
| Buttons | | | |
| Write Review Button Text | The text on the Write Review button. | Default is: Write A Review | All |
| Write Reviews Button Icon | The icon displayed to the left of the Write Review button text. | Default is: cv-ico-general-pencil | All |
| Submit Review Button Text | The text on the Submit button. | Default is: Submit Review | All |
| Read More Button Text | The text displayed on the Read More button. | Default is: Read More | All |
| Prompts | | | |
| Name Prompt | The label for the reviewer's name field. | Default is: Name | All |
| Email Prompt | The label for the reviewer's email address field. | Default is: Email | All |
| Rating Prompt | The label for the star rating. | Default is: Overall Rating | All |
| Location Prompt | The label for the reviewer's location field. | Default is: Location | All |
| Title Prompt | The label for the review title field. | Default is: Title | All |
| Summary Prompt | The label for the review content field. | Default is: Your Review | All |

Implementation Guide

- [Product Reviews](#)

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
