User Registration Widget

Widget Use
Used in email templates to provide a newly registered user with their login details as well as a link to the site's login page.

Example of Widget Use

Hi Sample

Thanks for registering as an online user! We trust you'll enjoy your shopping experience with us.

For your records, your login ID is: ben.rogencamp@commercevision.com.au

Log in to your account by clicking here.

Regards,

BPD UAT

Where can the Widget be placed?

The widget can be used in the following templates:

- New User Registration Email Template
- B2B User Creation Email
- Registration Email
- User Exists Email

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.s	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Include Surname?	Determines whether the user's last name will be included in the New user registration email when addressing the user.	Default: unticked Tick to enable	All
Registered Message	This is the message that the user will see in the user confirmation email upon registering a new account. We recommend including the user's login ID.	Use the placeholder {0} to represent where you would like the login ID to appear	All
Login Message	This is the message that prompts the user to login to their new account and will include a link to the login page.	Use the placeholder {0} to represent where you would like the login link to appear	All
Login Link Text	This is the text that fills the placeholder set in the 'Login Message' option and will link the user to the login page.	Default: 'login'	All
Login Message From Guest Checkout	This is the message that is sent to the new user to allow them to set a password after making a purchase and checking out to complete the account creation process. This message includes a link to the account creation page.	Use the placeholder {0} to represent where you would like the set password link to appear	All

Set Password Text	This is the text that fills the placeholder set in the 'Login Message From Guest Checkout' option and will link the user to the account creation page.	Default: 'set password'	All
Show User Exists Message?	Determines if the User Exists Message will be displayed in the email.	Default: unticked Tick to enable	All
User Exists Message	This is the message that appears if the user is already registered on the site. We recommend including the user's login ID.	Use the placeholder {0} to represent where you would like the login ID to appear	All
