

Widget option search

Picture this: you're reviewing the stock availability text on your website. You notice that some of your products are displaying "Call to Order" text, when you really just want them to say "Low stock".

You know you need to update the [Product Purchase Details](#) widget, but beyond that, you're not sure where to find the wording...

Office Star Cherry Finish Timber Visitor's Chair

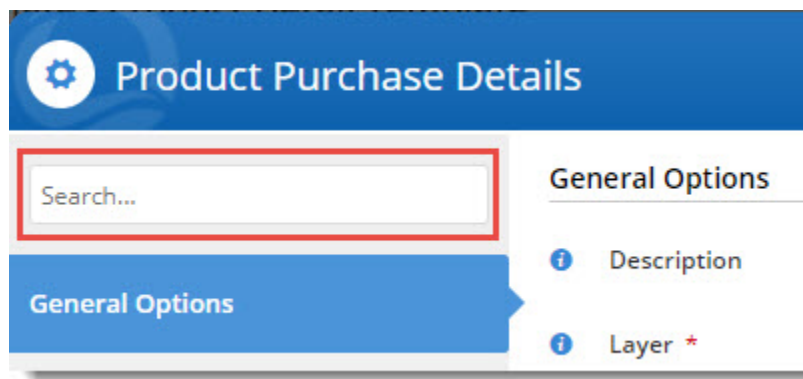

The image shows a product page for an "Office Star Cherry Finish Timber Visitor's Chair". On the left is a large image of the chair, which has a dark wood frame and a brown patterned fabric seat and backrest. Below the main image are three smaller thumbnail images of the chair from different angles. To the right of the chair image, the price is listed as "\$225.50 inc GST". Below the price, there are three status buttons: "Unavailable for Delivery" (with a truck icon), "Low Stock - Call To Order" (with a downward arrow icon), and "Check Other" (with a location pin icon). A red arrow points to the "Low Stock - Call To Order" button. Below these buttons is a quantity selector showing "1" with "+" and "-" buttons, and an "Add to cart" button. Further down, there is a "Technical Specifications" section with a table:

Brand	Office Star
Material	Fabric

Not to worry - thanks to our awesome new search function (right inside the widget!), this task just got much easier.

Your browser does not support the HTML5 video element

Now whenever you edit a widget, you can enter a search term to bring up related options, text, and help info.

All results will appear on a new **Search Results** tab. They will be grouped according to the tab they appear on.
