

# Product Variant Grid Widget

(Formerly known as the Product Attribute Grid widget)

## Widget Use

Renders 2-dimensional style / colour / size options for a product in a compact grid layout, instead of using the [Product Attribute List](#) display method. With the attribute grid, options are presented in a matrix where the user can enter quantities against multiple options and add their selections to the cart.

## Example of Widget Use

Following is an example of the widget in use:

### Dickies Ladies Fitted Polo Shirt

Product Code: CV144

The screenshot displays a product page for a Dickies Ladies Fitted Polo Shirt. On the left is a product image with a 'Zoom' button. To the right, the price is \$27.95 (inc GST). Below the price are two dropdown menus for 'Colour' and 'Size', both currently set to 'Please Select'. A quantity input field shows '1' with '+' and '-' buttons, and an 'Add to cart' button. Below this is a 'Style / Colour / Size' grid. The grid has columns for sizes: Small, Medium, Large, and XLarge. The rows are for colors: Red, White, Grey, and Blue. Each cell in the grid contains a quantity input field with '+' and '-' buttons. A red arrow points to the 'Medium' column header. At the bottom right of the grid is an 'Add your selections to cart' button. Below the grid is a 'Rating' section with 'Read Reviews (0)' and 'Write A Review' buttons.

## Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template
- Product List Item Zoned Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	Default: blank. We recommend a description is added so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
-------	------------------------------------	---	-----

Show Heading?	<p>Determines whether a heading is displayed to the customer above the attribute grid.</p> <p>  </p> <table border="1"> <thead> <tr> <th>Product Code</th> <th>Type</th> <th>Availability</th> <th>Price inc GST</th> <th>Qty</th> <th>Total inc GST</th> </tr> </thead> <tbody> <tr> <td>CV153</td> <td>Pants</td> <td> In Stock</td> <td>\$18.99</td> <td>0 <input type="button" value="+"/> <input type="button" value="-"/></td> <td>\$0.00</td> </tr> <tr> <td>CV154</td> <td>Shirt</td> <td> In Stock</td> <td>\$18.99</td> <td>0 <input type="button" value="+"/> <input type="button" value="-"/></td> <td>\$0.00</td> </tr> </tbody> </table>	Product Code	Type	Availability	Price inc GST	Qty	Total inc GST	CV153	Pants	In Stock	\$18.99	0 <input type="button" value="+"/> <input type="button" value="-"/>	\$0.00	CV154	Shirt	In Stock	\$18.99	0 <input type="button" value="+"/> <input type="button" value="-"/>	\$0.00	<p>Default: ON</p> <p>If OFF, the customer does not have to click the drop-down arrow to display the product selection grid.</p> <div data-bbox="1247 1129 1365 1967" style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;">  </div>	3.88

Heading Text	The heading displayed above the attribute grid (if enabled).	Default: Product Options	3.88
Add Button Text	The text on the Add to Cart button at the bottom of the attribute grid.	Default: Add selected to cart	3.88
Product Tooltip	The help text displayed when the user hovers over the quantity box for an option. The placeholders will be replaced as follows: <ul style="list-style-type: none"> <li>◦ {0} = the attribute combination (e.g. "Red, Small")</li> <li>◦ {1} = the price for 1</li> </ul>	Default: Price For Product {0} = {1}	3.88
Product Not Found Message Template	The message displayed to the user when they attempt to select an unavailable product. The placeholder {0} will be replaced with the selected combination (e.g. "Red, Small").	Default: Product {0} Not Found	3.88
Increase Quantities In Pack Qty?	Determines whether values in the quantity box change in pack quantity values when the + / - buttons are used.	Default: OFF	3.88
Add Minimum Quantity to Cart?		Default: OFF	

## Implementation Notes

- Only products with 2 attribute types can utilise the grid display; this widget will not render for products with fewer or more than 2 options.
- To enable a particular product for grid display, **Product Matrix Mode** must be set for that product.
- To ensure the product variant grid displays correctly in CSS, make sure **Product Matrix Mode** is allowed. See [Product Variant Grid](#) for more details.
- Please [contact CV Support](#) for assistance enabling multiple products in a bulk update.
