Can't live without these

I have to buy 3 times as many pins as I need, because everyone in the office steals mine. They're very handy indeed.

Jane Taylor , Melbourne

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Show Write Review Button?	Determines whether a button is displayed which links to the product review form. On clicking, the user is presented with a blank review form.	Default: enabled Toggle to disable	All
Default Number of Displayed Reviews	The maximum number of reviews displayed. If the number of reviews exceeds this value, a 'Read More' button will be displayed so the user can view all reviews for the product.	Default: 4	All
Show Reviewer Location?	Determines whether the reviewer's location is displayed in the published review.	Default: enabled Toggle to disable	All
Show Admin Replies?	Determines whether the admin's response is displayed below the review.	Default: disabled Toggle to enable	4.09
Admin Reply Signature	The signature text added to all review responses.		4.09
Include Child Reviews On Master Products?	Determines whether reviews of Child products will be included in the Master product page.	Default: disabled Toggle to enable	4.31
Titles			
Heading Text	The heading text displayed at the top of the widget.	Default: Customer Reviews	All
Notifications			
No Reviews Text	The text displayed when there are no reviews for a product.	Default is: There are currently no reviews for this product, be the first.	All
Thank You Text	The confirmation text displayed when the user has submitted a review.	Default is: Thank you for your review of {0}. Note - {0} is a placeholder for the product title	All
Buttons			
Write Review Button Text	The text on the Write Review button.	Default is: Write A Review	All
Write Reviews Button Icon	The icon displayed to the left of the Write Review button text.	Default is: cv-ico-general-pencil	All
Submit Review Button Text	The text on the Submit button.	Default is: Submit Review	All
Read More Button Text	The text displayed on the Read More button.	Default is: Read More	All
Prompts			
Name Prompt	The label for the reviewer's name field.	Default is: Name	All
Email Prompt	The label for the reviewer's email address field.	Default is: Email	All
Rating Prompt	The label for the star rating.	Default is: Overall Rating	All
Location Prompt	The label for the reviewer's location field.	Default is: Location	All
Title Prompt	The label for the review title field.	Default is: Title	All
Summary Prompt	The label for the review content field.	Default is: Your Review	All

Implementation Guide

- [Product Reviews](#)

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
