

Product Promo Code Enhancements

Two additional product promo codes are now available out-of-the-box. With the first, when customers buy a number of specific products, they get the lowest priced one for free. With the second, give them a special set price when they buy certain products together.

When I buy X quantity of eligible products, the cheapest one is free

Using this promotion code, the customer can get the additional product for free if buying more than the required quantity. The free product has to be the cheapest.

I can buy X quantity of eligible products for a set price

Using this promotion code, the customer can buy eligible products for the discount specified price.

Websites must be on versions 4.30+

Refer to the [Free Product Promo Codes](#) and [Product Discount Promo Codes](#) help pages for more information.
