# **Invoice Reprints (PRONTO)**

(1)

This guide is for the PRONTO ERP system only.

#### Overview

Let your B2B customers reprint invoices for all otheir orders online 24/7 - regardless of the entry point (Online, POS, etc). They can do this online without your assistance by:

- 1. selecting an invoice and requesting a reprint
- 2. entering an email address
- 3. selecting a format (.pdf or .csv.)

Invoice reprint requests are sent from the web to your ERP, and then 'printed' using either email2me, or TrueForms Director.

①

If you do not have all of the prerequisites listed in the table below, please contact Commerce Vision to discuss your needs.

- Your network has a printer named 'email2me' set up, OR TrueForms Director is installed in your ERP environment.
- 2. For PRONTO, version 670 or above is required.
- A version of the Commerce Vision program proledb.spl dated after 27/11/13 for TrueForms, OR proledb version 4.25 for email2me.
- 4. Shell access to the ERP Server.
- 5. A knowledge of ERP System Administration.
- 6. UNIX editor skills such as vi skills.

## Step-by-step guides

### In PRONTO

#### Using email2me

- 1. Ensure the latest proledb.spl import program is installed.
- 2. Access the Override program table (SYS.M359)
- 3. Set CSS\_INVPRT to 'E2ME'
- 4. If the default email2me printer queue is NOT email to me
  - a. Set CSSE2ME to '<printer name>'
  - b. (Refer to \$PRONTO/lib/printers for the name or consult the customer)

#### **Using TrueForms Director / TrueForms NEO**

- 1. Ensure the latest proledb.spl import program is installed.
- Set up a new entry in the \$PRONTO/lib/printers file as follows: cssinvoice, type=trueform, |pr=/xxx/lbin/cssinvoice \$1, no\_ff, no\_form\_type, where xxx is the pronto directory (e.g. /home/pronto/lbin/cssinvoice would be the full path if /home/pronto was the PRONTO directory)
- 3. cd \$PRONTO/lbin
- 4. vi cssinvoice
- 5. insert the following code: (use i for insert)
  - cat \$1 >/tmp/cssinvoice
- 6. Save the file (:wq!)
- 7. chmod +x cssinvoice
- 8. Determine the PRONTO virtual printer for emails from TrueForms its normally called "email" or "ztf-email" or similar
- 9. Login to PRONTO
- 10. Access the Override program table (SYS.M359)

Enter the following codes:

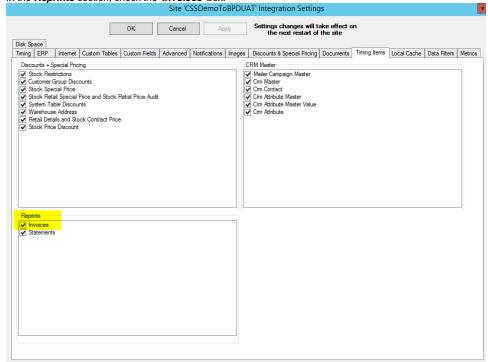

- a. CSS\_EMAIL: set the the name of the virtual printer (from h. above)
- b. CSS\_FR\_EM: the name of the from address (e.g. accounts)

- c. CSS\_FR\_DM: the domain name (e.g. bhp.com.au) this would make the full from email = accounts@bhp.com.au
- d. CSS\_INVPRT: set to TF or TFN (If you are using True Forms Director - TF or True Forms NEO - TFN)

Ensure the Commerce Vision user (normally commvisi) does not have the "spool" option set in the Credit Release Officers table (SYS.X053).

## On the Integrator

- 1. Select the **Settings** gear icon.
- 2. Select the Timing Items tab.
- 3. In the Reprints section, check the 'Invoices' box.

- 4. Click 'Apply', then OK.
- 5. Stop and restart the Integrator.

## Online (website)

- 1. In the CMS, navigate to Advanced Settings System Preferences.
- 2. Select the Browse tab.

3. Tick Enable ERP Invoice Reprint.
