Overview

Pay in 4 (Pay Later) is PayPal's Buy Now, Pay Later payment option. Whether The Pay in 4 is available for a specific purchase is determined by PayPal. If offered (subject to PayPal's terms and conditions), it will be listed as a payment option once a customer has signed into their PayPal account.

Pay Later (Pay in 4) offered as payment option	Pay in 4 not offered
 <p>The screenshot shows a PayPal checkout page where 'Pay Later' is presented as a payment option. It includes a message: 'To continue, link a card or choose a way to pay later.' Below this, 'Pay with' offers '+ Add a payment method'. 'Pay later' is highlighted with a 'NEW' badge. The 'Pay in 4' option is shown with a radio button and details: '4 interest-free payments of \$22.37 due every 2 weeks, starting today.' A cookie consent banner is at the bottom.</p>	 <p>The screenshot shows a PayPal checkout page where 'Pay in 4' is not offered. The heading is 'Choose a way to pay'. It lists available payment methods: 'National Australia Bank Checking ****3332' and 'Visa Credit ****1881'. There is a '+ Link a card' option and a large blue 'Continue' button. Footer links for 'Terms', 'Privacy', and 'Feedback' are visible.</p>

NOTE - If your site is using the [Braintree Payments gateway](#) to process PayPal transactions and [vaulting](#) is on, Pay in 4 will not be available for logged in customers at checkout. It will still be offered if the user selects PayPal via PayPal Express. Pay in 4 is always available for guest users as vaulting is not applicable.

Pay in 4 Express button

For sites using the Braintree Payments gateway, you can add a Pay in 4 button to either or both the Product Detail and Cart pages. The button lets customers log into Pay in 4 and complete the order in one click rather than going through the checkout process. Express Pay in 4 is not affected if [vaulting](#) is on.

To add and enable Pay in 4 as a PayPal Express option, see: [Braintree PayPal settings](#).

Add Pay in 4 messaging on your website

For sites using the Braintree gateway, Pay in 4 messaging can be added to any page.

There are two messaging versions:

- generic** - **Pay in 4 interest-free payments on purchases of \$30-\$1,500.** [Learn more](#) This displays a general promotional message about Pay in 4. It is suitable and available for any relevant page. Just add the [PayPal Pay Later Generic Summary Widget](#) in the desired zone of a page. For instance, you might want to alert customers that Pay in 4 is available by adding it to the Home Page.
- with calculated instalment** - **Pay in 4 interest-free payments of \$11.75.** [Learn more](#) This includes the specific instalment amount calculated from the product price (Product Detail page) or customer's cart total (Cart page and Cart Summary popup). The message is automatically enabled in the widget so it will display by default if Braintree PayPal Express is on. It can be disabled in the widget.

data- pp- style- ratio	

Options:

Ratio 1x4. 160px wide.

Ratio 8x1. Flexes between 250px and 768px wide.

Ratio 20x1. Flexes between 250px and 1169px wide.

1. To hide the PayPal Pay in 4 message, toggle ON **Force Hide Pay Later Message**.

Why would I want to hide the messaging?

This messaging is not controlled by where the Pay in 4 button is located. It simply displays after the Express buttons. So it may not display where you would like it to be. You can always add Pay in 4 messaging where you want it by adding the [PayPal Pay Later Generic Summary Widget](#) on any page or template.

2. To save changes, Click **Save**.

Additional Information

Minimum Version Requirements	4.31
