Hotspot Image Widget

Widget Use

Renders the hotspot banner in a cluster category. When a user clicks on a product image on the banner, they are taken to the product on the cluster page.

Example of Widget Use

Where can the Widget be placed?

- Product List Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Hotspot Width	The width of the hotspot clickable area.	Default: 40 pixels	4.31
Hotspot Scroll Offset From Top (pixels)	The position of the linked product's details from the top of the screen after user clicks the hotspot.	Default: 200 pixels	4.31
