Overview

This guide is for use of non-PRONTO ERP systems only. For PRONTO, see [Invoice Reprints \(PRONTO\)](#).

Let your B2B customers reprint account invoices for all orders online 24/7.

They can do this online without your assistance in Pay Accounts by selecting the invoices, entering an email address, and clicking Send Reprint Request.

Your Customer Experience

Your B2B user with Customer Account access logs on to your website. They access Pay Account (on the Dashboard navigation menu or via the quick access button.)

The screenshot displays the Commerce Vision user dashboard. At the top, there's a navigation bar with 'Switch Account' (set to 'Affaire (WAFFA)'), 'Role' (set to 'Business To Business User (B2B Default)'), 'Logout', and 'Dashboard'. Below this is a search bar and a menu with 'Shop By Category', 'Static Content Examples', 'News', 'Contact Us', and 'Store Locator'. The main content area is titled 'Update your email address'. It features two sections: 'My Profile' with 'Change Password', 'My Details', and 'My Preferences'; and 'My Pages' with a grid of quick access buttons. The 'Pay Account' button in the 'My Pages' grid is highlighted with a red arrow. A side navigation menu is open on the right, listing various functions, with 'Pay Account' also highlighted by a red arrow.
