

Order Template Cost Centre Widget

Widget Use

Renders the cost centre input field on each product line in an order template.

 Cost Centres must be enabled. See: [Use Cost Centres](#).

Example of Widget Use

Following is an example of the widget in use:

Product	Price (ex GST)	Discount	Ext. Price (ex GST)	Qty	Options
 BIC Grip Rollerball Pens, Fine Code: CV251 Cost Centre: <input type="text" value="Cost Centre"/> Notes <input type="text" value="Add Product Note"/>	\$16.50	0.00%	\$99.00	- 6 +	<input type="checkbox"/> Delete

Where can the Widget be placed?

The widget can be used in the following templates:

- Order Lines Info
- Order Template Lines Info

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Cost Centre Prompt	The prompt displayed for the cost centre field.	Default: Cost Centre:	3.84
Cost Centre Help Text	The tooltip displayed when the user hovers on the help icon.		3.96
Cost Centre Placeholder	The placeholder text displayed in the input field (until the user begins typing).	Default: Cost Centre	3.96
