

Order Project Selector Widget

Widget Use

Renders the Project panel on the Checkout page to allow users to link an order to a Client Project.

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- Checkout Template

To use the [Customer Client Projects](#) feature, this widget must be added to the Checkout page.

Widget Options

Option	Use	Comments	Available from Version
Description	Short specific description of widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	Define audience for widget.	Use Layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Heading	Heading name	Default: Project	4.31
New Project Button Label	Text for button link to open 'create new project' window.	Default: New Project	4.31
Maximum Results	Maximum number of results to display in Select Project dropdown list	Default: 10 NOTE - The user can always scroll down to view more results beyond this number.	4.31
No Project Selected Label	Text for the dropdown list when it first appears or when no project is selected.	Default: -- No Project Selected --	4.31
