

Online Quotes mode

Is this feature disabled?

Contact To Enable

This feature needs to be implemented and enabled for your site by Commerce Vision. For versions 4.37+ only.

The Online Quotes mode is maintained and managed entirely on your website. So unlike the [Standard mode](#), it does not rely on your ERP's quoting system. Settings are configured in the CMS. Currently, online quotes cannot be adjusted.

Online Quote mode is integrated with the [Order Approvals](#) feature. If budget limits have been set up on a customer account or for a customer user, any quote over the order limit will trigger the approval process.

As with all modes, Online Quotes is Role-based. Quoting has to be enabled for each Role on the Roles maintenance page.

Customer Experience

1. A customer user adds products to cart. In the last step of the checkout process, in the Payments panel, they click the **Request Quote** tab, then the **Request Quote** button. **NOTE** - Request Quote cannot be accessed on the cart page.

Payment

Account	Credit Card	PayPal	Direct Deposit	BPay	Request Quote
---------	-------------	--------	----------------	------	----------------------

Submit this order as a quote.

i Your order will be submitted as a Quote request.

Request Quote

2. The customer receives a quote confirmation email. If approvals is triggered, the approver is emailed.

Your quote #100019463

Please click on the link below to finish your order.

[Checkout](#)

This link will expire 2 days from the time this email is sent.

Order Summary

Item	Qty	Price (inc GST)	Unit	Discount	Total (inc GST)
 High Visibility Waterproof Safety Trousers, Small Code: CV500	1	\$23.00	Each	5.00%	\$21.85
Subtotal (inc GST)					\$21.85
Freight					No Charge
Total (inc GST)					\$21.85
Including GST					\$2.85

3. The customer can find the quote on the **Quote Review** page.

Home / Dashboard / Quote Review
Change Store

Configure Online Quotes

This guide assumes Commerce Vision has enabled the Standard mode for your website.

1. Enable Online Only Quote mode

This will have been set up for your site during implementation.

1. In the CMS, go to **Settings Settings Feature Management Payment & Checkout. Quotes.**

2. Toggle ON **Quotes**, then click **Configure**.
3. Ensure **Quote Mode Selection** is set to 'Online Only'.

4. If you had to change Quote Mode to 'Online Only', click **Save**.

2. Configure Settings

Use Configuration Settings to add custom search quote fields and edit the 'quote expiring' email task and labels.

1. **Quote Search Custom Field List:** select one or more custom fields to display as a column in the Quote Review page. (**NOTE** - Required custom fields may need to be added by Commerce Vision.)

Quote Search Custom Field List

No added custom field

Quote No.	Entered By	Quote Date	Customer Code	Status	Your Ref	Sent To	Total (inc)	Options
100012923	sarah.lesing@gmail.co	04/04/2022	AACAB	Quotation			\$207.54	View

With 'Quote Expiry Date' field added

Quote No.	Entered By	Quote Date	Customer Code	Status	Your Ref	Sent To	Total (incl)	Quote Expiry Date	Options
100012823	sarah1.testing@gmail.com	04/04/2022	AACAB	Quotation			\$207.54	12/07/2022	View

- Quote Request Submitted Message:** message sent to user after quote has been submitted. Default: Your quote request has been submitted. Thank you.

Quote Expiring settings

- Number of Days Before Quote Expires:** how many days before quote expires to send alert email. Default: 2

Expiry Date Override must be custom-implemented. Use Case: A user creating a quote has included products that are currently discounted because of a promotion. A custom promo expiry field against products has been implemented for Product Maintenance. This retrieves relevant promo end dates from the ERP. The earliest promotion end date will be used as the quote expiry date instead of the default number of days.

- Enable Quote Expiry Date Override Field:** Toggle ON to allow override of expiry date. Default: OFF
- Quote Expiry Date Override Field:** If step 4 is on, select option.
- CC Notification Emails:** one or more internal contacts to cc when an expiring soon email is triggered. Type in email address, then press Enter key.

CC Notification Emails

Add an email address, then press Enter or Tab. You can add multiple email addresses.

- BCC Notification Emails:** one or more internal contacts to bcc when an expiring soon email is triggered. Type in email address, then press Enter key.
- Click **Save**.

3. Edit Expired Quote Usage Request Email template (optional)

When a user requests the use of an expired quote on the Quote Review page, an email is sent to the notification email address entered.

Expired Quote is being used.

Quote Number: 100019463

User Requesting Use:

The template is accessed via **Content** menu **Emails** **Expired Quote Usage Request Email Template**

CMS Administrators can go directly to the Expired Quote Usage Request Email template via Quotes settings. Click the **Expired Quote Usage Request Email** button. See: [Expired Quote Usage Email Information Widget](#).

4. Edit Quote Cancelled Reasons

The user can cancel the quote on the [Quote Review](#) page. Add a list of cancel reasons they can select from.

1. In the **Quotes Features Settings** page, ensure **Quote Mode Selection** is set to 'Online Only'.
2. In **Configuration Settings**, click **Edit Quote Cancelled Reasons**
3. Click **Add New Quote Cancelled Reason**.
4. **Is Active**: enable this reason on your site
5. **Code**: identifier for the reason (not displayed to user)
6. **Description**: label user sees in the dropdown list.
7. Click **Save**.

5. Set Scheduled Task Options

The scheduled task checks for any expiring quotes within the days set in '**Number of Days Before Quote Expires**' and sends an email to the user and any cc'ed/bb'ed users.

1. **Number of days before quote expiring to send email**: Default: 14
2. **Date to start running scheduled task**: enter date and time
3. To go directly to the Quote Reminder email template, click **Quote Reminder Email** button.

6. Set Email Quote Options

Admin quote functions must be set by Role to prevent global access. Use the [Overrides system](#) to give Quote Admin rights to particular Roles. Example: Cancelling an online quote might be restricted to Purchasing Officers. Only that Role can view and use the Cancel Quote button.

Set which Roles can:

- send a quote
- edit a quote
- cancel a quote

Email Quote Options

Configure settings related to send quotes to email for checkout

<input type="checkbox"/>	Enable Admin Send Quote To User	Overrides 1
<input type="checkbox"/>	Enable Admin Amend Online Quote	Overrides 1
<input type="checkbox"/>	Enable Admin To Cancel Online Quote	Overrides 1

7. Set Default Role and Customer Account for Online Quotes (optional)

1. In **Default Role For Online Quote For New User**, enter a Role.
2. In **Default Customer Code For Online Quote For New User**, enter a customer code.

8. Edit Online Quote Email Templates (optional)

The quote email template and cancel quote email templates can be edited. Both templates contain the order details. See: [Email Order Summary Widget](#). The Online Quote Email includes a link for the user to accept the quote and convert it to an order.

The templates are accessed on the **Content** menu **Emails Online Quote Email Template / Online Quote Cancelled Email Template**.

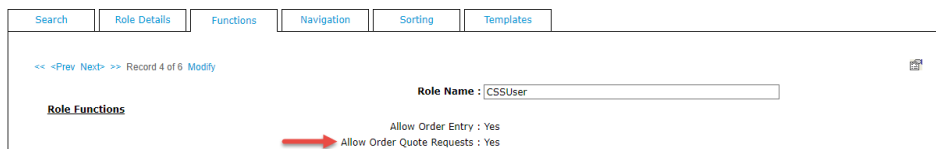

CMS Administrators can access them directly from the **Quotes Features Settings** page. Click:

✉ Online Quote Email Template

✉ Online Quote Cancelled Email Template

9. Set Online Quote access for a Role

1. In the CMS, go to **Users Roles** (or on the website as Admin, go to Users Roles) .
2. **Select the Role** you'd like to update (e.g. 'CSSUser'). The page will immediately refresh to display role details.
3. Select the **Functions** tab and click **Modify**.
4. Set **Allow Order Quote Requests** to **Yes**.

Search Role Details Functions Navigation Sorting Templates

<< <Prev Next> >> Record 4 of 6 Modify

Role Name : CSSUser

Role Functions

Allow Order Entry : Yes

Allow Order Quote Requests : Yes

5. Click **OK** to save.

Additional Information

Minimum Version Requirements	4.37
Prerequisites	--
Self Configurable	No
Business Function	Ordering
BPD Only?	Yes
B2B/B2C/Both	B2B
Third Party Costs	n/a
