

Style Guide Class Colours

Your business design and branding guides supplied to Commerce Vision have been incorporated into the theme creation process.

Colours for basic elements on your site are displayed under UI Elements on the Style Guides menu in CMS.

Primary Colours

These are the primary colours :

These colours are incorporated throughout widget options (where applicable) and the static content widget. They can also be applied to:

- 'additional classes' in HTML Snippets and Custom Widgets
- standard widgets to basic effect. (Note - results may vary).

See: [Design UI/UX - Additional Classes "Utility Classes](#)

Classes and effects:

Classes to Apply	Effect
------------------	--------

default background	background colour shading
default text	text colour
primary background	background colour shading
primary text	text colour
secondary background	background colour shading
secondary text	text colour
alternate background	background colour shading
alternate text	text colour
black background	background colour shading
black text	text colour
