# Customise Widgets Using Classes
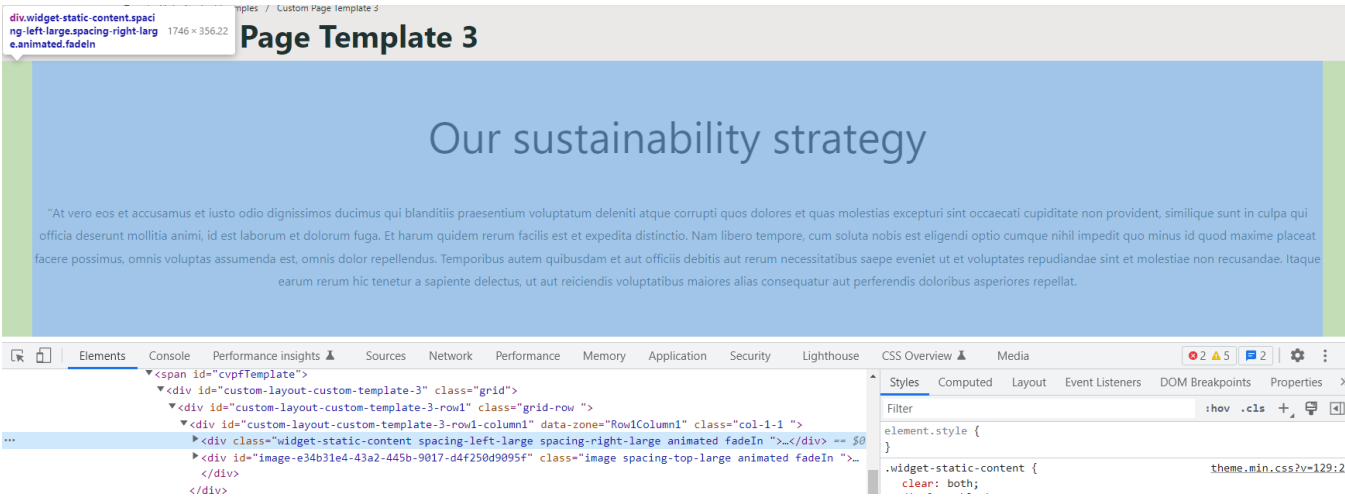

Under **Common Options** tab on each widget, you can apply **Additional Classes**. Apply your own or choose from this list of classes: Design UI/UX - Additional Classes "Utility Classes".

This example has these additional classes added:

- **spacing-left-large**
  - This adds in spacing to the left of the element (green highlight below)
- **spacing-right-large**
  - This adds in spacing to the right of the element (green highlight below)
- **animated**
  - Allows widget to apply animate.css animation effects (see https://cvconnect.commercevision.com.au/display/KB/Animation+Support)
- **fadeIn**
  - A fade in effect on page load applied via animate.css

The combination creates many easy-to-configure effects such as the following:
