

# Current Order Account Switch Message Widget

(Formerly known as the Order Account Switching Message widget)

## Widget Use

Displays the message text in the popup when Enhanced Order Switching is in use and the user switches accounts while compiling an order. If the user has items in the cart of their destination account, they are given the option to remove them, place them on hold, or merge with current cart items.

## Example of Widget Use

Following is an example of the widget in use:

## Where can the Widget be placed?

The widget can be used in the following templates:

- Enhanced Order Account Switching Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	It is recommended to use this so the reason for use of the widget is seen from the template page	All

Layer	The layer the widget is valid for.	The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.  This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.  The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Message Alert	The alert text displayed at the top of the modal window.	Default is: Items exist in your selected account	
Message Body	The message content, which calls the user to action.	Default is: There are {0} items currently in the cart of account {1}. For the items in this account, you may choose:	
Hold Message	The label for the Hold option, which places the products in the destination cart on hold, and carries the current cart over to the destination account.	Default is: Place the items on hold and continue the current items only.	
Delete Message	The label for the Delete option, which removes the products from the destination cart and replaces with the current cart products.	Default is: Replace the items with the current items to be added.	
Merge Message	The label for the Merge option, which combines the two carts together after switching to the destination account.	Default is: Continue and merge the items with the current items to be added.	

## Implementation Notes

- "Enable Enhanced Order Account Switching" - this flag must be enabled for the Role in order for the modal window to be triggered.
- "Is Change Account For Current Order?" - this option must be ticked on the '[Account Select](#)' widget in your Cart template. Otherwise the user will not be allowed to take their cart with them when they switch accounts.

## Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM\\_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
