

# User Approval UnRejected Message Widget

## Widget Use

Renders the message content in the User Approval Unrejected email. This email is triggered when a previously rejected B2B user is subsequently approved for web access. The email is sent to the designated approver for that user's account.

## Example of Widget Use

Following is an example of the widget in use:

## Where can the Widget be placed?

The widget can be used in the following templates:

- User Approval Unrejected Email Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The <a href="#">layering technology</a> allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Rejected Message	<p>Section 1 of the message content displayed by the widget in the body of the email.</p> <p>This section contains the information on the newly approved user who had previously been rejected.</p> <ul style="list-style-type: none"> <li>The placeholder {companyName} is replaced with your Company name.</li> <li>The placeholders {firstName}, {surname}, {emailAddress}, {initialRole}, and {customerCode} are replaced with actual values applicable to that user.</li> </ul>	<p>Default is:</p> <p>This is a system-generated email from the {companyName} Website</p> <p>A user's login that was rejected has been activated. You are listed as your Customer Account's designated approver for new registrations.</p> <p>User Name: {firstName} {surname}  User Email: {emailAddress}  User Initial Role: {initialRole}  User Customer Number: {customerCode}</p>	3.88
User Unrejected Login Message	<p>Section 2 of the message content displayed by the widget in the body of the email.</p> <p>This section contains the link for the approving user to login and review the users awaiting approval on their account.</p>	<p>Default is:</p> <p>Click {userApproveLink} to verify your login details and you will be directed to a page listing all the current users awaiting approval for your Account. From here you can grant them access to the site.</p>	3.88
User Unrejected Login Link Text	The text displayed as the login hyperlink for the approver.	Default is: here	3.88

## Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM\\_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
