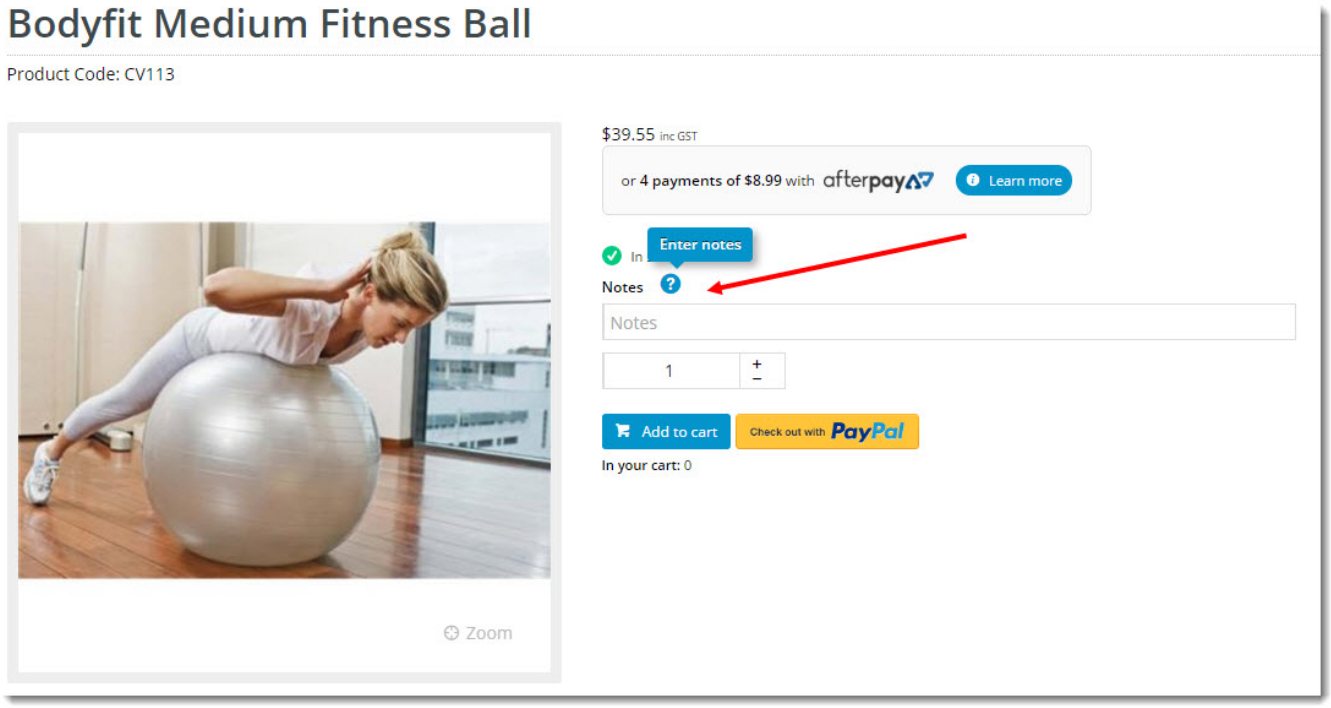
Product Notes Widget

Widget Use

Renders the note input field on the product detail page. This widget is used instead of the Product Purchase Details widget, to allow for customisation of placement on the page.

Example of Widget Use

Following is an example of the widget in use:



Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

Option	Use	Comments	Available from Version
Description	The description of the widget	It is recommended to use this so the reason for use of the widget is seem from the template page	All
Layer	The layer that the widget will be shown on	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Prompts			

Notes Prompt	The label for the notes field.	Default is: Notes	
Notes Placeholder Text	The placeholder displayed in the notes input field, until the user begins typing.	Default is: Add Product Note	
Tooltips			
Notes Field Help Text	The tooltip help content displayed when the user hovers over the notes field.	Default is: Enter notes
