

Recently Viewed Products

Overview

The [Recently Viewed Products widget](#) can be used to display a list of products the user has previously browsed. The fields shown on these product tiles are customisable thanks to the zoned layout template.

Recently Viewed

Product Name	Model	Price (inc GST)	RRP (Each)
Wenzel Vacation Lodge 7-Person Tent	CV132	\$249.99	\$249.99
Alpine Design 45-Degree Microlite Mesa Hybrid Sleeping Bag	CV135	\$27.95	\$27.95
Camp Chef Rolling Carry Bag	CV139	\$54.99	\$54.99
Coleman Classic LED Lantern - F Size	CV384	\$49.99	\$49.99

Custom fields can be included, additional data can be shown, and widgets can be dragged and dropped onto the template as needed. This guide will cover the zoned layout for Recently Viewed Products.

Add The Widget

First, place the 'Recently Viewed Products' widget on your Product Detail template.

1. In the CMS, navigate to **Content Standard Pages**.
2. Select the **Product Detail** template.
3. Locate the appropriate zone according your layout (we're using 'Zone Bottom'), and click **Add Widget**.

4. Search for **Recently Viewed Products** widget and click **Add Widget**.

5. **Edit** your newly added widget.

6. **Configure** the general options as required (Title, max number of products, etc). Widget documentation can be found here - [Recently Viewed Products Widget](#).

7. **Select** the **Zoned Functions** tab.

8. **Configure** the zoned options as required.

9. **Click Save**.

Customise The Template

To adjust the type of content displayed on the Recently Viewed Products tiles, you can customise the template with widgets to suit your website.

1. **Navigate** to **Content Standard Pages**.

2. Select the **Recently Viewed Zoned Template**. *Tip: use the search box to quickly find the template you're after!*

3. The default widgets will be laid out on the template.

4. To rearrange the order of the content, simply drag and drop widgets to re-sequence.

5. To add content, click 'Add Widget' in the zone you wish new content to appear in.

6. To remove content, click the options arrow, then select 'Delete' on the widget you wish to remove.

7. Refresh your product detail page (in another browser or incognito window) to see your changes reflected.

And that's it! Now your customers can easily navigate back to a product they viewed, making their shopping and purchasing that much easier.

Additional Information

--

Minimum Version Requirements	** * * *
Prerequisites	--
Self Configurable	Yes
Business Function	Website User Experience
BPD Only?	Yes
B2B/B2C/Both	Both
