PDF Flyer Style Sheet Widget

Widget Use

Acts as the 'theme layout' for PDF flyers generated via the Flyer Creator. The style sheet sets the header and footer colours, logo placement, and contact details layout.

NOTE - The default flyer stylesheet contains only base styling. Your site should use a customised stylesheet that reflects your business. Contact our implementation and design team for more info!

Where can the Widget be placed?

The widget can be used in the following templates:

- PDF Flyer Layout Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
