

Cart Preview on Hover

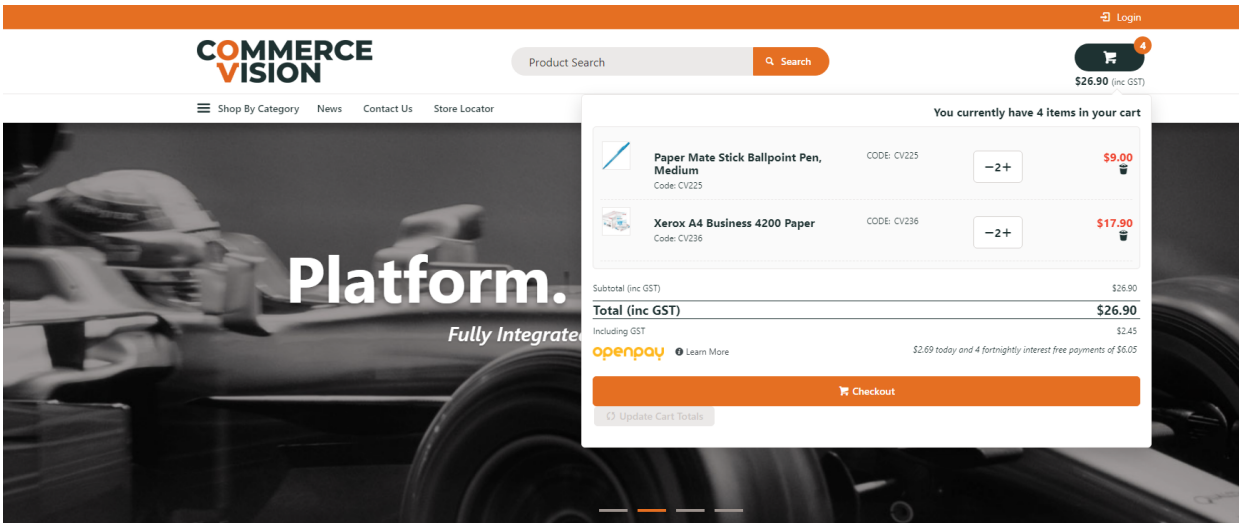

Overview

The Cart Summary link can open a popup window for the user to preview cart contents. This allows them to check product quantities and costs without leaving the current page viewed.

From 4.37+, users will be able to edit quantities and remove products in Cart Preview. Simply turn the feature on or off in the [Cart Summary Widget](#).

Step-by-step guide

Add Cart Preview on Hover

1. In the CMS, go to **Content Theme Layout**.
2. Find the **Cart Summary Widget** and click **Edit**.

3. Toggle ON **Cart Preview on Hover?**.

The screenshot shows the 'Cart Summary' configuration window with the 'General Options' tab selected. The left sidebar contains a search bar and three menu items: 'General Options' (highlighted in orange), 'Cart Preview On Hover', and 'Common Options'. The main panel lists various settings. The 'Cart Preview on Hover?' option is a toggle switch that is currently turned on, indicated by a green circle and a red arrow pointing to it. Below this toggle is a tooltip that says 'Displays more cart information on hover'. Other visible settings include 'Description', 'Layer' (set to 'All Pages'), 'Cart URL' (set to '/cart'), 'Navigate to Cart URL on Cart Icon click?' (toggle on), 'Cart Icon' (set to 'cv-ico-general-cart'), 'Hide Default Icon' (toggle off), 'Order Packages or Line Count shown?' (set to 'Order Packages'), 'Placeholder for Cart Count' (set to '[0]'), 'Inc / Ex Tax Display' (set to 'Customer Defined'), 'Show Tax Display?' (toggle on), 'Show Only Icon On Mobile?' (toggle on), 'Link To Tax Toggle Widget?' (toggle off), and 'Turn off default icon' (toggle on).

4. Click the **Cart Preview On Hover** tab.

5. Edit values and options as required. **TIP** - As a preview window, you may want to be selective about what order info should be displayed. From 4.37+, you can allow the user to edit quantities and delete order lines. See: [Cart Summary Widget](#).

The screenshot shows the 'Cart Summary' configuration window with the 'Cart Preview On Hover' tab selected. The left sidebar is the same as in the previous screenshot, but 'Cart Preview On Hover' is now highlighted in orange. The main panel contains a list of text prompts and their corresponding values. The prompts include: 'Popup Header Text' (value: 'You currently have [0] in your cart'), 'Popup Header Count Text' (value: 'item'), 'Charges Prompt' (value: 'Charges'), 'Charge Line Discounts Prompt' (value: 'Discounts'), 'Discounts Prompt' (value: 'Discounts'), 'Freight Prompt' (value: 'Freight'), 'Zero Dollar Freight Charge Display' (value: 'No Charge'), 'Requires Quote Freight Charge Display' (value: 'Requires Quote'), 'Show Promotional Code Expiry Date?' (toggle off), 'Promotional Code Expiry Date Prompt' (value: 'This Promotional Code expires on: [0]'), 'Tax Prompt' (value: 'GST'), 'Subtotal Prompt' (value: 'Subtotal'), 'Including Tax Prompt (inc tax)' (value: 'Including GST'), 'Including Tax Prompt (ex tax)' (value: 'Plus GST'), 'Total (inc-tax) prompt' (value: 'Total (inc GST)'), 'Giftcard total prompt' (value: 'Giftcard Total'), 'Amount owing after gift cards' (value: 'Net Owing'), and 'Checkout button text' (value: 'Checkout'). At the bottom right of the main panel, there are two buttons: 'Cancel' (red) and 'Save' (green).

6. Click **Save**.

Allow Quantity Updates in Cart Preview

For versions 4.37+ only

In the Cart Summary Widget:

1. Click **Cart Preview** on the *Hover* tab.
2. Toggle ON **Enable Cart Editing?**.
3. (Optional) Toggle ON **Enable Cart Editing Auto Update?** to automatically update cart totals without manual updating by the user.

Test Cart Preview

Once you have updated Cart Preview, check that the popup contents and functions are as you require.

1. In another browser or incognito window, launch your website. **TIP** - This will ensure the window's contents reflect updated settings and not any cached ones.
2. Add products to the cart.
3. Hover the mouse over the cart link.
4. Check the window displays as configured.

Additional Information

Minimum Version Requirements	03.87.00
