

Cart Preview on Hover

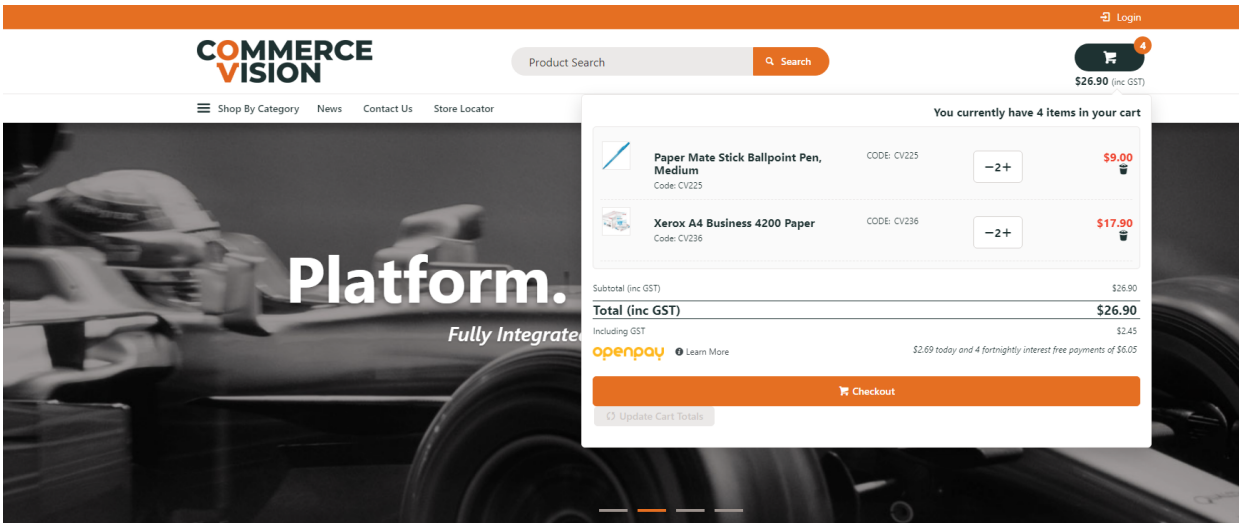

Overview

The Cart Summary link can open a popup window for the user to preview cart contents. This allows them to check product quantities and costs without leaving the current page viewed.

From 4.37+, users will be able to edit quantities and remove products in Cart Preview. Simply turn the feature on or off in the [Cart Summary Widget](#).

Step-by-step guide

Add Cart Preview on Hover

1. In the CMS, go to **Content Theme Layout**.
2. Find the **Cart Summary Widget** and click **Edit**.

3. Toggle ON **Cart Preview on Hover?**.

The screenshot shows the 'Cart Summary' configuration window with the 'General Options' tab selected. The 'Cart Preview on Hover?' toggle is turned on, indicated by a green switch and a red arrow. Other visible options include 'Description', 'Layer' (set to 'All Pages'), 'Cart URL' (set to '/cart'), 'Navigate to Cart URL on Cart Icon click?' (turned on), 'Cart Icon' (set to 'cv-ico-general-cart'), 'Hide Default Icon' (turned off), 'Order Packages or Line Count shown?' (set to 'Order Packages'), 'Placeholder for Cart Count' (set to '[0]'), 'Inc / Ex Tax Display' (set to 'Customer Defined'), 'Show Tax Display?' (turned on), 'Show Only Icon On Mobile?' (turned on), 'Link To Tax Toggle Widget?' (turned off), and 'Turn off default icon' (turned on).

4. Click the **Cart Preview On Hover** tab.

5. Edit values and options as required. **TIP** - As a preview window, you may want to be selective about what order info should be displayed. From 4.37+, you can allow the user to edit quantities and delete order lines. See: [Cart Summary Widget](#).

The screenshot shows the 'Cart Summary' configuration window with the 'Cart Preview On Hover' tab selected. The tab is highlighted in orange. The form contains various prompts and text fields for configuring the cart preview, such as 'Popup Header Text' (set to 'You currently have [0] in your cart'), 'Popup Header Count Text' (set to 'item'), 'Charges Prompt' (set to 'Charges'), 'Charge Line Discounts Prompt' (set to 'Discounts'), 'Discounts Prompt' (set to 'Discounts'), 'Freight Prompt' (set to 'Freight'), 'Zero Dollar Freight Charge Display' (set to 'No Charge'), 'Requires Quote Freight Charge Display' (set to 'Requires Quote'), 'Show Promotional Code Expiry Date?' (turned off), 'Promotional Code Expiry Date Prompt' (set to 'This Promotional Code expires on: [0]'), 'Tax Prompt' (set to 'GST'), 'Subtotal Prompt' (set to 'Subtotal'), 'Including Tax Prompt (inc tax)' (set to 'Including GST'), 'Including Tax Prompt (ex tax)' (set to 'Plus GST'), 'Total (inc-tax) prompt' (set to 'Total (inc GST)'), 'Giftcard total prompt' (set to 'Giftcard Total'), 'Amount owing after gift cards' (set to 'Net Owing'), and 'Checkout button text' (set to 'Checkout'). At the bottom right, there are 'Cancel' and 'Save' buttons.

6. Click **Save**.

Allow Quantity Updates in Cart Preview

For versions 4.37+ only

In the Cart Summary Widget:

1. Click **Cart Preview** on the Hover tab.
2. Toggle ON **Enable Cart Editing?**.
3. (Optional) Toggle ON **Enable Cart Editing Auto Update?** to automatically update cart totals without manual updating by the user.

Test Cart Preview

Once you have updated Cart Preview, check that the popup contents and functions are as you require.

1. In another browser or incognito window, launch your website. **TIP** - This will ensure the window's contents reflect updated settings and not any cached ones.
2. Add products to the cart.
3. Hover the mouse over the cart link.
4. Check the window displays as configured.
