

Add items to the Mega Menu

Overview

The [Mega Menu Widget](#) renders the category menu for your site, where each top level category is displayed with its subcategories expanding beneath. But what if you'd like to display other items in this menu, in addition to your product categories? Well, from version 3.91+ you can!

To achieve this, you'll need a Section Menu containing the item(s) you want to display. You can create a section menu by following this guide [Section Menu Editor](#).

Step-by-step guide

Edit the Mega Menu widget

1. In the CMS, navigate to **Content Pages & Templates**.
2. Select the **Theme Layout** tab and **Edit the Theme Layout**.

3. Locate your **Mega Menu widget** and click **Edit**.

4. Select the **Section Menu Settings** tab on the left.

5. From the **Section Menu Item Code** dropdown, select the section menu you'd like to display.
6. Decide whether you'd like this menu to display **before (prepend)** or **after (append)** your category list. Select the option from the dropdown.
7. Enter optional heading text for the top level of this menu. If you leave it blank, it will default to the first child item in the section menu. (? query with JW)
 - a. Enter an **optional link** for your heading.
8. If you'd like an icon to appear next to your heading, set it in the **Section Menu Icon** field via the dropdown.
 - a. Decide whether the icon should appear to the **left or right** of the heading.
9. **Save** your widget.

Push the changes to your website

Refresh your website's template cache to force the changes to your website:

1. Navigate to **Settings Dictionary**.
2. Tick the **'Templates'** box and click **Refresh Cache**.

3. Refresh your website in another browser to view your updated mega menu!

Section menu content not displaying? Check the roles associated with the menu and either view your website as a user with the correct role, or update the permissions for that menu.

Edit Parent Menu Assignments: Favourites menu

	Menu Code	Roles
<input type="checkbox"/>	Customer Self Service - Accounts Only (CSSACC)	Accounts Team (No Ordering) (Accounts)
<input checked="" type="checkbox"/>	Customer Self Service - B2B (CSS)	Business To Business User (B2B Default) (CSSUser)
<input type="checkbox"/>	Customer Self Service - Ordering Only (CSSORD)	Purchasing Officer (No Accounts Access) (CSSORD)
<input type="checkbox"/>	Customer Self Service - User Administration (CSSADMINUSER)	*** No Roles Associated ***
<input type="checkbox"/>	Customer Self Service Administration (CSSADMIN)	Website Administrator (Administrator)
<input checked="" type="checkbox"/>	Public (PUBLIC)	Public User - Not Logged In (PUBLIC) Self Registered Casual User (B2C) (PUBLIC)
