Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template
- Product Quick View Popup Template (from version 4.11+)

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommended this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Image Path	The file path to the folder in which 500px product images are stored.	Default is: /images/ProductImages/500/	All
Zoom Image Path	The file path to the folder in which full size product images are stored.	Default is: /images/ProductImages/	All
Show Ribbons?	Determines whether product ribbons are displayed in the gallery.	<p>Default is: enabled</p> <p>Untick to disable</p>	All
Show Zoom?	Determines whether the image zoom link is displayed. Not applicable when the widget is used on the Product Quick View Popup template.	<p>Default is: enabled</p> <p>Untick to disable</p>	All
Include Videos?	Determines whether videos are included in the gallery.	<p>Default is: enabled</p> <p>Untick to disable</p>	All
Vimeo Text Colour	The hex code for the video title colour and other Vimeo elements.	Default is: bc3d54	All
Zoom Prompt	The text displayed for the image zoom link.	Default is: Zoom	All
Show On Mobile?	Determines whether the widget is displayed on a mobile device. If unticked, the gallery will be hidden on mobile devices.	<p>Default is: enabled</p> <p>Untick to disable</p>	All

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
