Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Client Group Select Prompt	A prompt for the user to indicate what function the button provides	Default: Print Invoice As "client" is a SignalR term, we recommend changing this message to something more meaningful; in this example, <i>Select Printer</i>	4.13.00
Client Group Select Icon	The icon displayed next to the text prompt.	Default: cv-ico-general-flow-cascade	4.13.00
Hide Default Icon	Hides the Client Group Select Icon.	Default: OFF	4.13.00
Show Only Icon on Mobile?	Only display the icon (not the Client Group Select Prompt text) if you are on a mobile device.	Default: ON	4.13.00
Notifications			
Client Group Cannot Be Communicated With Message	The system displays this message when the SignalR client is offline or unavailable.	Default: The selected Client Group is not available. Please select another if possible.	4.13.00
No Clients Online Message	The system displays this message if it cannot find any SignalR clients configured or running.	Default: Comes up if no "printer": There are no Clients currently online.	4.13.00
No Client Group Selected Message	The system displays this message if the user did not select a SignalR client.	Default: Please select a Client Group.	4.13.00
