Debugging minified JavaScript files

Follow these steps to debug JavaScript that has been minified and bundled.

This will only affect the session you currently have open; it will not affect other users of the site.

Step-by-step guide

To turn off/on bundling and minifying for debugging purposes:

1. *Navigate to this page on the website.*
2. *Run this page: /ScriptDebug.axd?debug=true.*
3. *Navigate back to the home page.*

✅ **/ScriptDebug.axd?debug=true** will turn ON debugging (i.e. turn OFF bundling and minifying)

/ScriptDebug.axd?debug=false will turn OFF debugging (i.e. turn ON bundling and minifying)
