

# Page Title Widget

## Widget Use

Displays the page title text. It can be used in any zone of a template, but recommended use is once at the top of a page.

## Example of Widget Use

## Where can the Widget be placed?

The widget can be used in the following templates:

- All Templates

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommended this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The <a href="#">layering technology</a> allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Page Title	The page title text displayed.	In the example above, "Shopping Cart" is the page title.	All
Sub Title	The subtitle text displayed below the title text.	In the example above, "Please review your cart before checkout." is the subtitle.	All
Page Icon	The icon to show to the left of the Page Title text.	In the example above, the icon of the shopping cart is the Page Icon.  Select via drop-down	All
