

Checkout Field Groups Widget

Widget Use

Displays a pre-defined field group at checkout in order to collect additional, perhaps specialised information from users.

NOTE - A Field Group has to be created before this widget can be used to access it. See: [field groups](#)

Example of Widget Use

The screenshot shows a widget with a blue header containing a lightbulb icon and the text 'Special Information'. Below the header is a section titled 'Sample Field Group'. Under this title, there are two input fields. The first is labeled 'Customer Preferred Delivery Date' and contains the text '20/10/2015' with a calendar icon to its right. The second is labeled 'Company Name' and is currently empty.

Where can the Widget be placed?

The widget can be used in the following templates:

- Checkout Template
- Checkout Quote Template
- PayPal Express Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Heading	Heading text displayed at the top of the widget.	In the example above, the heading is 'Special Information'	All
Heading Icon	Icon displayed to the left of the heading text.	In the example above, the heading icon is the light bulb. Select via drop-down	All
Display Field Group Headings	Whether the field group heading is displayed above the field group fields. Note: the checkout field group is set against the role, and the option exists to set two field groups if required.	In the example above, the field group heading is 'Sample Field Group'. Default: ON Toggle to disable	All
Display 'Order Complete Field Group'	Whether a custom field group is to be displayed when an order is submitted.	Default: ON Toggle to disable	All

Display 'Order Complete Field Group 2'	Whether a second custom field group is to be displayed when an order is submitted.	Default: ON Toggle to disable	All
