Order Line Availability Widget

Widget Use

Displays product availability at the order line level in dynamic scenarios such as the cart.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- Order Lines Information Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short specific description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
In Stock Prompt	The text displayed when the product is available.	Default: In Stock	All
Out Of Stock Prompt	The text displayed when the product is unavailable.	Default: Out Of Stock	All
Show Quantities?	Determines whether the available quantity is displayed for each product.	Default: disabled Toggle to enable	All
