

Payment Cancelled Widget

Widget Use

Renders relevant messages and response codes on the 'Payment Cancelled' page (where a user lands after cancelling a PayPal payment, for example).

Example of Widget Use

Following is an example of the widget in use:

| Payment Cancelled | Validation Failed |
|---|---|
| <div><div> Payment Not Processed</div><div>Your payment has not been processed</div><div><div> Payment Cancelled</div><div>You have cancelled your payment via Paypal. The contents of the shopping cart have been saved for you.</div><div>If you would like to return to your shopping cart click this View Cart link.</div></div></div> | <div><div> Payment Not Processed</div><div>Your payment has not been processed</div><div><div> Payment Validation Failed</div><div>Your payment could not be processed</div><div><div> Validation Error: PayPal Express Checkout</div><div>If you would like to return to your shopping cart click this View Cart link.</div></div></div></div> |

Where can the Widget be placed?

The widget can be used in the following templates:

- Payment Cancelled Page Template

Widget Options

| Option | Use | Comments | Available from Version |
|---------------------|---|---|------------------------|
| Description | A short description of the widget's use. | We recommended this field be updated so the widget's purpose is clear at a glance from the template page. | All |
| Layer | The layer the widget is valid for. | <p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p> | All |
| Show Response Code? | Determines whether the payment gateway response code is displayed for payment errors. | <p>Default is: enabled</p> <p>Untick to disable</p> | All |

| | | | |

Other Widgets

- [Order Payment Links Form Widget](#) — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- [Magic Link Authentication Message Widget](#) — Renders the Magic Link authentication message.
- [CUSTOM_Side by Side Content Tiles Widget](#) — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- [Stock Dialog Widget](#) — Displays the Stock to Receive Detail dialog window.
- [Stock to Receive Widget](#) — Displays the Stock to Receive page.
- [Stock Levels Widget](#) — Displays Stock Levels page.
- [Order Declined Pending 3rd Party Installment Msg Widget](#) — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- [Order Field Static Widget](#) — Renders an additional order field in email templates.
- [Online Quote Validation Widget](#) — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- [Header Level Cost Centre Widget](#) — Renders the cost centre input field on the order header in the shopping cart.
- [Openpay Summary Widget](#) — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the [Product Purchase Details widget](#) if you want to customise tagline placement on the template.
- [Order Line Availability - Click and Collect Widget](#) — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- [Account Activation Email Content Widget](#) — Renders the message content in the Invitation to Register an Account email.
- [Order Template Cost Centre Widget](#) — Renders the cost centre input field on each product line in an order template.
- [BPAY Account Payment Detail Widget](#) — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
