

Product Category List Widget

Widget Use

Dynamically renders the product category list.

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- All Templates

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Show Levels	The number of category levels to display in the list (1, 2, or 3).	<p>Default: 2</p> <p>Select via drop-down</p>	All
All Categories Expandable?	Whether all category levels can be expanded. If <i>not</i> enabled, only the number in 'Show Levels' are expandable.	<p>Default: enabled</p> <p>Toggle to disable</p>	All
Category URL Prefix	The prefix inserted into the category URL before the category name. Primarily used during existing site upgrades to BPD, where it is desirable to maintain existing URLs.		All
Always Expand Top Level?	Whether all top level categories are automatically expanded.	<p>Default: disabled</p> <p>Toggle to enable</p>	All
Show On Mobile?	Whether the widget is displayed on a mobile device. If disabled, the category list will be hidden on mobile devices.	<p>Default: disabled</p> <p>Toggle to enable</p>	All
