

# Product List Sort Widget

## Widget Use

Renders the 'Sort By' selector for products found in a product list search results.

## Example of Widget Use

## Where can the Widget be placed?

The widget can be used in the following templates:

- Product List Template
- Product Favorite's Template
- Prior Purchases Template

## Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use <a href="#">layering</a> to limit widget content to certain groups of users.  To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Sort By Prompt	Label for the dropdown selector.	Default: Sort	All

Please Select Text	Default text displayed in the dropdown when the user has not yet selected a sort option.	Default: Please Select... <b>NOTE</b> - If Lucene is enabled, the default sort value will be Popularity.	All
Relevance	Text to tell what the dropdown is for.	Default: Relevance	All
Sort Options	Click <b>Edit</b> to select options for the sort dropdown.  In the <b>Sort Options</b> modal, add, remove or reorder sort options, then click <b>Apply</b> .	Default:  Name: IntegratedPrice Value: Price (Low to High) Name: IntegratedPrice DESC Value: Price (High to Low) Name: ProductCode A-Z Value: Product Code Name: ProductCode DESC Value: Product Code Z-A Name: Description A-Z, value: Description A-Z Name: Description DESC Value: Description Z-A  Where a sort field can display values that are ascending or descending, the default is ascending. This means ascending sorts don't have to be specified. DESC = descending  <b>NOTE</b> - Listed are the six default sort options. You can configure sort options to custom sort by fields in the Product table. <div> <b>Custom Sort Fields</b> <b>Add custom sort fields</b>  <b>IMPORTANT</b> - You will need to know the field name.  In <b>Name</b>: enter the field name. Ascending values default, e.g., alphabetically from A up, or low to high etc. For descending order, add a space, then DESC.  In <b>Value</b>, enter the text displayed to the user.</div>	2022.3
Apply Globally	When ON, sort options set in this widget instance are applied to all Product List widget instances site-wide that also have Apply Globally ON.  The most recently set sort options In a widget instance with Apply Globally ON will be applied to other widget instances that also have Apply Globally ON. Includes the <a href="#">Product List Sort Mobile Widget</a> .	Default: OFF  When OFF, sort options set here are applied only to this widget instance.	2022.3
