Description

- **Rigid Steel Frame Construction.** Heavy-duty 2" x 3" and 2" by 4" steel frame construction delivers a rock-solid platform for hardcore cardio workouts. The Endurance T10 is built to withstand constant pounding and jarring.
- **Lifetime Tread belt and Shock Absorbent, Low Maintenance Deck.** Unlike other brands, Endurance tread belts are guaranteed for life. Plus, our ultra low maintenance phenolic deck employs a SRS (Suspended Running Surface) design supported by a multi-point shock absorption system. What this means is that your knees, hips, ankles and feet will feel comfortable, even during long marathon sessions.
- **Extra Thick and Durable Tread Belt.** Multi-ply tread belts are fusion-seamed for strength, flexibility and smooth travel over the phenolic deck. Unlike other brands, Endurance tread belts are guaranteed for life.
- **Powerful Motor.** Endurance motors are designed to exceed horsepower and performance standards for home-use treadmills. Each motor is protected by P.W.M. (Pulse Width Modulation) technology and air-cooled for efficient performance. The integrated circuit breaker protects the motor and control boards from power surges. Bright LED displays let you monitor your running track and provide you with constant feedback on your workout, including heart rate, elevation, time, distance, speed and calories burned.
- **Large Diameter Crowned Rollers.** Casehardened steel rollers feature a large diameter design with a wide-radius crown to drastically decrease wear, substantially increase surface contact and provide superior belt tracking.
- **Safety Key Stop System.** Endurance treadmills will only operate when the safety key is engaged on the control panel. This gives you the ability to instantly shut down operation if you need to.
- **Quiet Performance.** The Endurance Poly-V Belt Drive System delivers an amazingly quiet workout experience, allowing you to watch TV or read a book without being distracted by machine noise.

Where can the Widget be placed?

The widget can be used in the following templates:

- Product Detail Template

Widget Options

Note - Options for displaying branding for third party payments are also available in the [Cart Order Summary Totals Widget](#) and the individual widget for the third party payment option.

| Option | Use |
|-------------|--|
| Description | A short description of the widget's use. |

| | |
|----------------------------------|--|
| Layer | The layer the widget is valid for. |
| Show Favourites Button? | Determines whether the Favourites button is displayed for logged in users. |
| Show Quantity In Cart? | Determines whether the quantity currently in the user's cart is displayed in this widget. |
| Hide Pricing? | Determines whether pricing is hidden on the product detail page. |
| Show RRP? | Determines whether the product's Recommended Retail Price is displayed. |
| Show Quantity Breaks? | Determines whether pricing quantity breaks are displayed. |
| Show Availability? | Determines whether stock availability is displayed. |
| Show Note Field? | Determines whether a note input field is displayed. The user can enter note text for the product before adding it to the cart. |
| Show Quantity on Back Order? | Determines whether the quantity on backorder is displayed in this section. When enabled, the quantity on backorder for the logged in Customer will be shown. |
| Hide When Master Product? | Determines whether Product Details for a Master product is displayed or not. |
| Show Notify Me button? | Determines whether the Notify Me When In Stock button is displayed on the page. |
| Increase Quantities In Pack Qty? | Forces the value in the quantity field to increase/decrease in pack quantities when using the plus/minus icons, rather than by the default quantity of 1. |

| | |
|---|---|
| Default Quantity Breaks Expanded? | Determines whether the quantity break data is expanded or collapsed by default. When ON, the default is expanded. |
| Attributed Product Price Display | Determines the price shown for master products appearing in the list. Select from: <ul style="list-style-type: none"> • Default Functionality - The nett price for one is displayed. (TBC) • Don't Show - no price is displayed for master products - the user must select attributes in order to view pricing. • Price From Default - TBC • Price From First - TBC |
| Strip Zero Decimal Amounts | When the price is an even dollar amount, the cents are stripped from the display. (For example, \$147.00 would be displayed as \$147) |
| Show Discount Saved | Inserts an additional column to display the 'percent saved' for each discounted price. |
| Discount Saved Decimal Places | Determines how many decimal places are shown in the percentage saved. Select from 0 to 4. |
| Show My Price? | Shows the price user would pay depending on the quantity entered in cart if volume discounts are used |
| Show Quantities? | Determines whether available quantity is displayed. |
| Use Role Flag To Hide Availability? | Determines whether the role flag is obeyed in regard to stock availability display. |
| Always Display Quantity In Cart Prompt? | Quantity in Cart Prompt will be displayed even when cart quantity is 0 for the product |

Braintree

See the [Braintree PayPal settings](#) guide.

Buttons

| | |
