

Product Search Widget

Widget Use

Renders the standard search tool that allows the user to search products and/or content. Displaying product suggestions is optional.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- All Templates
- Required: Theme Layout Template

Implementation guides

- [Product Discovery & Site Search Tools](#)
- [Static Content Search Functionality](#)

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	<p>The layering technology allows for the content to be shown to specific audiences.</p> <p>This is handy if the content is only valid for a certain type of user or if the same widget is required for more than one audience but different configurations are needed.</p> <p>The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.</p>	All
Static Content Search	<p>The default is to search only products to match keywords. Change to include content pages such as articles and blogs.</p> <p>Include Static Content Search: Searches both products and static content that match the keyword(s).</p> <p>Static Content Search Only: Searches products only.</p> <p>NOTE - Including static content options are shown only when Content Search is enabled. See: Static Content Search.</p>	Default: disabled	4.14.00
Use Suggestions?	<p>Determines whether suggested searches are offered to the user. These are based on previously entered (successful) search terms over a defined period.</p> 	<p>Default: enabled</p> <p>Toggle to disable</p>	All
Use Product Suggestions?	<p>Determines whether the user is offered suggested products in a dropdown. They can click a suggested product to be redirected to its detail page.</p> <p>These suggestions are based on Lucene index data.</p> 	<p>Default: enabled</p> <p>Toggle to disable</p>	All
Use Prior Purchase?	Determines whether the user can choose to search from only their prior purchases (rather than all available products).	<p>Default: disabled</p> <p>Toggle to enable</p>	3.88
Search Page URL	<p>The URL for the search function.</p> <p>NOTE - Changing this widget option is not recommended</p>	Default: /search	All

Show Product Image?	Determines whether a thumbnail image is included in the product search suggestions dropdown.	Default: disabled Toggle to enable	3.89
Show Product Code?	Determines whether the product code is appended to the description in the suggestions dropdown. NOTE - This option is only compatible with product suggestions ('Use Product Suggestions?' option). Product codes do not show against search suggestions ('Use Suggestions?' option).	Default: disabled Toggle to enable	3.89
Show APN Instead Of Product Code	Determines whether the Australian Product Number is displayed instead of the product code.	Default: disabled Toggle to enable	3.89
Place Holder Image	The file path for the fallback image used for products with no image found.	Default: /Themes/BPDTHEME01/theme-client-updates/img/placeholder/product-image.png	4.03
Show Product Suggestions Heading?	If the "Use Product Suggestions" option is enabled, you can display a heading above the suggested products.	Default: enabled Toggle to disable	4.03
Show Search Suggestions Heading?	If the "Use Suggestions" option is enabled, you can display a heading above the suggested search terms with this option.	Default: enabled Toggle to disable	4.03
Titles			
Product Suggestions Heading Text	The heading displayed above suggested products (when "Show Product Suggestions Heading" option is enabled).	Default: Product Suggestions	4.03
Search Suggestions Heading Text	The heading displayed above suggested search terms (when "Show Search Suggestions Heading" option is enabled).	Default: Search Suggestions	4.03
Buttons			
Search Button Text	The text displayed on the search button.	Default: Search	4.03
Prompts			
Search Place Holder	Text displayed in the search bar to prompt the user to enter search terms.	Default: Product Search	All
Search Prior Purchases	Text displayed next to the prior purchase search option (where Prior Purchase is enabled).	Default: Prior Purchase Search	3.88
Search User Favourites Text	Text displayed next to the user favourites search option (where Search Favourites is enabled).	Default: User Favourites Search	4.03
