Select Approver Widget

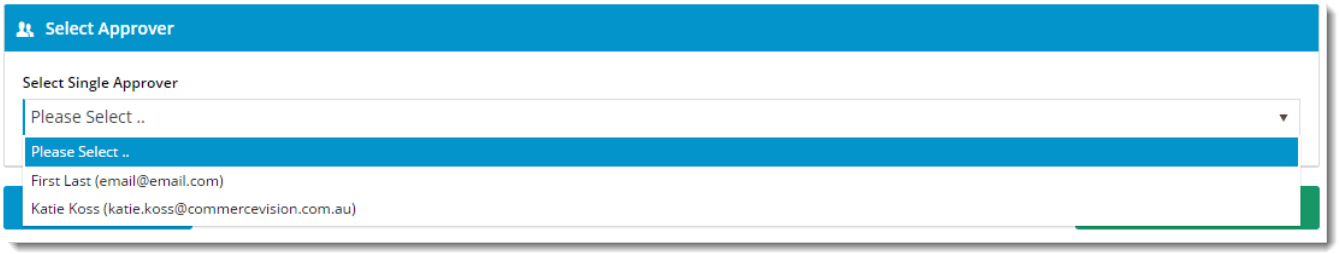

Widget Use

Renders the approval options for orders which can't be submitted directly, but must first be submitted for approval within the user's organisation.

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- Checkout Template
- Checkout Quote Template
- PayPal Express Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	This description is added to the widget title. It makes the widget's use clear on the template page.	All
Layer	The layer the widget is valid for.	Use layering to limit widget content to certain groups of users. To use the same widget for more than one user group but with different options set, add the widget as many times as needed in the same zone. Then add layering to define the user group each time.	All
Title	Text for heading at the top of the widget.	Default: Select Approver	All
Single Option Prompt	Text that tells user to select an approver from the list.	Default: Select Single Approver	All
Multi Option Prompt	Text that tells user to select multiple approvers from the list.	Default: Select Approver(s)	All
Fixed Option Prompt	Text displayed when the approver is automatically selected and cannot be changed.	Default: Selected Approver(s)	All

Fixed Group Prompt	Text displayed when the approval group is automatically selected and cannot be changed.	Default: Selected Approval Group(s)	All
No Approver Found	Message displayed when no valid approver can be found.	Default: Order cannot be submitted as there is no approver with the correct approval limit authority.	All
Single Approver Auto Selected	Message displayed when the approver is successfully auto-selected.	Default: Approver(s) were auto-selected	All
No Selection Allowed Auto Selected	Message displayed when the approver(s) or approval group is successfully auto-selected for the order. The dropdown list is displayed but the user cannot select.	Default: Approver(s) have been automatically set against your order	All
Group Auto Select Message	Message that the approval group is successfully auto-selected.	Default: Your Approval Group has automatically been selected	All
Generic Error Setting Approver	Error message displayed when the system is unable to set the approver for the order.	Default: Unable to set order approver	All
