# User Name Widget

Widget Use

Renders the username or email address.

Example of Widget Use

Where can the Widget be placed?

The widget can be used in the following templates:

- All Templates

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommended this field be updated so the widget's purpose is clear at a glance from the template page.	All
Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience, but different configuration is needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
User Name Link URL	Registers a URL link to the user name		All
User Name Icon	This will add an icon class to the user name	Default is: cv-ico-general-user Select via drop-down	All
Hide Default Icon	This will allow you to not show the default icon if you have not already overridden the user name icon	Default is: unticked Tick to enable	All
Show First Name?	This will display the user's first name in the User name widget	Default is: ticked Untick to disable	All
Show Surname?	This will display the user's last name in the User name widget. If fist name and surname options are both unticked, the surname will appear regardless of whether the surname option is ticked or not	Default is: ticked Untick to disable	All
Show Email Address?	If ticked, the users email address will be displayed in the user name widget next to the name	Default is: unticked Tick to enable	All
Show On Mobile?	Determines whether the widget is displayed on a mobile device. If unticked, User Name will be hidden on mobile devices.	Default is: unticked Tick to enable	All
Show Only Icon On Mobile?	If ticked, the username text will not appear on the mobile site but the icon will still appear.	Default is: ticked Untick to disable	All
Right Align?	Pushes the widget to the right of the zone it is located in.		All

Other Widgets

- Order Payment Links Form Widget — Renders an order details stepper with an order form that can be automatically populated with query strings, and/or manually entered by the user. The form doesn't validate the order details are accurate in order to stay both secure and accessible to unauthenticated users.
- Magic Link Authentication Message Widget — Renders the Magic Link authentication message.
- CUSTOM_Side by Side Content Tiles Widget — Renders two side by side content tiles in a zone with widget options for selecting or adding background colour, image, text and link/button positioning.
- Stock Dialog Widget — Displays the Stock to Receive Detail dialog window.
- Stock to Receive Widget — Displays the Stock to Receive page.
- Stock Levels Widget — Displays Stock Levels page.
- Order Declined Pending 3rd Party Installment Msg Widget — Renders the message body for the email sent when the user selects to sign up and pay with a Buy Now Pay Later provider but approval is subject to further checks.
- Order Field Static Widget — Renders an additional order field in email templates.
- Online Quote Validation Widget — Renders the appropriate message to the user after the current status of an online quote accessed via an email link is validated.
- Header Level Cost Centre Widget — Renders the cost centre input field on the order header in the shopping cart.
- Openpay Summary Widget — Renders Openpay marketing information for a product on the product detail page. Use this widget instead of the Product Purchase Details widget if you want to customise tagline placement on the template.
- Order Line Availability - Click and Collect Widget — Displays product availability and delivery methods at the order line level in dynamic scenarios such as the cart when Click & Collect is enabled.
- Account Activation Email Content Widget — Renders the message content in the Invitation to Register an Account email.
- Order Template Cost Centre Widget — Renders the cost centre input field on each product line in an order template.
- BPAY Account Payment Detail Widget — Renders BPAY payment information in the body of the BPAY Account Payment email. This email is sent to users who pay invoices or pay down their account balance using BPAY.
