

# Sliding Filter for Product Features

The ability to display numeric product features as sliding filters is available from version 3.96+ (with additional options from version 4.00+). Similar to a price range filter, you can elect to display numeric features in a sliding range interface (for example, PSI rating, age range, or flow rate).

## Sleeping Bags

Sort: Relevance Showing 1 - 4 of 4 Per page: 24

**Filter By**

**Price Range**

**Brand**

- ☐ Alpine Design
- ☐ Coleman
- ☒ Apply

**Warmth Rating**

## How To Use It

1. In the CMS, navigate to **Products & Categories Product Features**.
2. **Edit** the feature you wish to display as a sliding filter.

3. **Toggle** the option on to **Display as Numeric Slider**.

4. If your website is running **version 4.00+**, you can also select the display mode you wish to use:

- **Whole Number** (e.g. 250)
- **Decimal** (e.g. 125.56)
- **Currency** (e.g. \$25.00)

- **Whole Number Currency** (e.g. \$25)

Display as Numeric Slider

- ☐ Display as Whole Number
- ☐ Display as Decimal
- ☐ Display as Currency
- ☒ Display as Whole Number Currency

5. **Save & Exit.**

Presto! Now your users can slide the filter to narrow down their product search.
