

Article List Article Title Widget

Widget Use

Renders the Article Title ('Description' field in Article Maintenance) in the list of articles when zoned layout is in use.

Example of Widget Use

Following is an example of the widget in use:

Where can the Widget be placed?

The widget can be used in the following templates:

- Article List Item Zoned Template

Widget Options

Option	Use	Comments	Available from Version
Description	A short description of the widget's use.	We recommend this field be updated so the widget's purpose is clear at a glance from the template page.	All

Layer	The layer the widget is valid for.	The layering technology allows for the content to be shown to specific audiences. This is handy if the content is only valid for a certain type of user, or if the same widget is required for more than one audience but different configurations are needed. The widget can be added to the zone more than once and the layer feature can determine which audience can see each widget.	All
Article Route Prefix	The prefix inserted between the main site URL and the article title. Used for SEO purposes. For example, in the following URL, 'blog' is the route prefix:http://www.commercevision.com.au/blog/back-to-the-future	Default: article	3.87
Enable Article Hyperlink?	Determines whether the Article Title is linked to the article detail page.	Default: on Toggle to disable	3.87
